

-MAKE LIFE BETTER-

2023 Catalogue

Exclusive to Natural Health-Food Stores
We DO NOT Sell Direct to Consumers—Ever!

Our 4 NDs, 3 PhDs, 7 MScs and 12 BScs take great pride
in providing you with the highest quality products

**All Products Are Non-GMO and Tested in
Our ISO 17025–Accredited Laboratory**

Ingredients are Tested Three Times
for Identity, Potency, Oxidation,
Disintegration and Purity

We Screen for Heavy Metals,
Pesticides, PCBs, Solvents,
Aflatoxins, Dioxins,
Mycotoxins, Microbial
Contamination,
and More!

Proudly Made

for Canadians.
Buy Local!

Continuing to Make Life Better for Canadians!

ISO 17025: Highest Quality Standards

We are the first company in the industry to have its own in-house laboratory, which has been ISO 17025–accredited since 2014—and renewed every year since. ISO 17025 accreditation is the single, most important standard for calibration and testing laboratories around the world. Our dedication to quality leads the industry, setting the highest standards for purity, potency, and product quality. Your customers expect the best; let us help you provide it!

Expanding Promotional Support

Since 2020, we have increased our support of natural health-food stores with investments in television, radio, and digital promotional campaigns, driving new consumers to natural health-food stores like yours, where your knowledgeable staff helped them find what they were looking for—and more!

Maintaining Exclusivity

New Roots Herbal remains exclusive to natural health-food stores like yours. When you recommend New Roots Herbal, you are ensuring a return visit to a dedicated health-food store like yours! Suggesting brands available in pharmacies, supermarkets, or big-box stores opens the door to your customer repurchasing in over 10,000 other locations. This risks eroding your business. Train your staff to recommend New Roots Herbal, and the customers will return to purchase this exclusive brand. Exclusivity is vital!

EXCLUSIVE

We Supply More Than Products

Continued Canadian Growth

As a Canadian business that's focused on making high-quality products for our fellow Canadians, our success shows how far the industry has come since we started, back in 1985. We began as a small business, so we understand your challenges. With your support, our production facility has expanded from under 60,000 sq. ft. to 127,000 sq. ft.! And we've more than doubled our analytical laboratory facilities to 8,000 sq. ft. to help us create innovative new products and continue to ensure what's on our labels is exactly what's in our products. As we grow together, so

does our excitement at being able to serve you better.

Real Support of Health Food Stores

You started your natural-health business because you saw it as a better way to help people heal and prevent disease. It's something you've always believed in—and now, science is backing you up. Your passion, and that of your employees, is what inspires our ongoing commitment to remain exclusive to natural health-food stores—we **have never** and **will never** distribute through chain pharmacies, supermarkets, and big-box stores. And **we do not sell online**. We found 15 of your vitamin and supplement suppliers selling their products on their websites directly to consumers, at up to 30% off, with free shipping. They are competing with you, stealing your revenue, and undermining your future. Shameful. When you introduce your customers to our products, you know they'll keep coming back to you to purchase them.

Training for Your Staff

The **New Roots Herbal Training Academy** was launched and is growing in popularity. Through our live webinars, interactive modules, and customized staff trainings, we offer continuous product training and information on condition-specific topics to help your staff serve your customers better. If not already signed up, do so by contacting webinar@newrootsherbal.com.

We Supply More Than Products

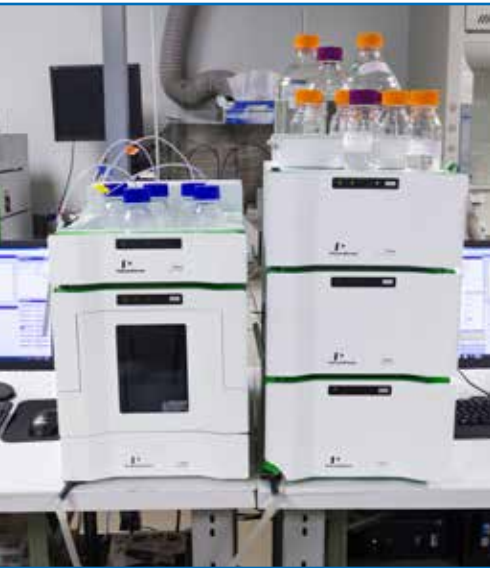

Multidisciplinary Scientific Expertise

We believe in the benefits of science—and so does our team of 22 dedicated scientists. Our roster includes 3 PhDs, 7 MScs, and 12 BScs with specialties including biochemistry, food science and agricultural chemistry, chemical engineering, pharmaceutical sciences, and more. On top of that, we employ 4 naturopathic physicians who all graduated from the Canadian College of Naturopathic Medicine in Toronto and have over 55 years of combined experience. Together, they use their knowledge and expertise to create innovative health products and ensure our quality is always second to none.

Technological Investments

Thanks to ongoing investments, the advanced technology in our ISO 17025–accredited laboratory allows us to guarantee the identity, purity, quality, and non-GMO status of our products. We are also able to detect and quantify genetically modified organisms using leading-edge, real-time polymerase chain reaction (PCR) testing. And no one else in the industry has our ability to test down to **1 trillionth of a gram** (10^{-12} g). Our state-of-the-art production facilities allow us to increase production in-house while maintaining the high quality standards consumers have grown to trust. With all that, it's not surprising that we're able to attract the brightest minds in our industry, ensuring a better future for us all.

Product Development

Our team is in constant motion, developing new products and improving existing industry-leading formulas. We further invest in research and technology for advanced delivery systems such as our GPS™ enteric-coating system to protect probiotics from stomach acid. While delayed release and acid-resistant capsules leak and cause probiotics to be destroyed, our GPS™ enteric-coating system guarantees intestinal delivery of live probiotic cells. And that's just one of the incredible innovations we are working on!

Taking Quality to the Next Level

All of Our Products Are Subjected to the Following Quality Tests

Identity

To identify a plant ingredient is to ensure that the ingredient matches the species it is claimed to be; for example, it is borage seed and no other seed. Our testing always ensures that the ingredient matches the label.

Potency

To confirm the potency of an ingredient is to ensure the ingredient is at the strength it is claimed to be; for example, grape seed will keep, contain, and meet the 80% oligomeric proanthocyanidins label claim.

Oxidation

Some products can go rancid with time. Our oxidation testing absolutely ensures our products maintain the highest levels of quality and freshness, as well as the lowest level of peroxide, all the way through to expiration.

Disintegration

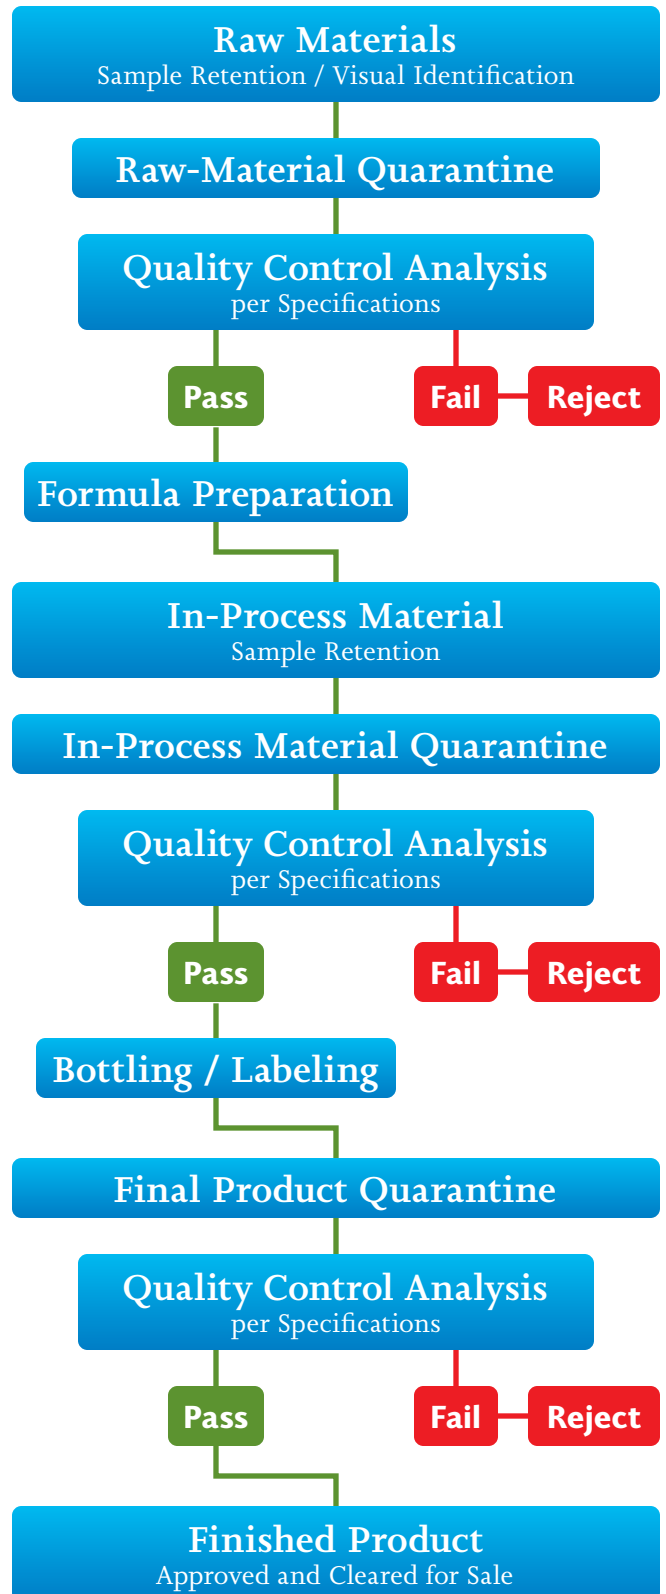

Capsules, softgels, and tablets must dissolve in the stomach; on the other hand, enteric-coated capsules, such as those of Acidophilus Ultra, must only dissolve in the intestines. Our disintegration testing mimics the human digestive system to ensure all products dissolve at the right place and at the right time.

Purity

To establish the purity of an ingredient is to test for safety from contaminants. These contaminants include:

- **Heavy Metals:** The Earth is permeated by natural levels of heavy metals. Ground crops are especially susceptible. Our testing guarantees the safety of our products.
- **Over 80 different pesticides, total PCBs, solvent residues are tested.** These chemicals are dangerous and can contaminate ingredients at any stage. Our testing absolutely ensures our products are safe from these contaminants and their dangers.
- **Aflatoxins, mycotoxins, dioxins, microbial contamination:** Testing only for microbial contamination is not enough. Our testing guarantees our products are safe from microbial contamination as well as of any residue these bacteria can produce. This level of meticulous testing is only possible with the strongest scientific team equipped with the most technologically advanced equipment.

Manufacturing Flowchart

At the Crossroads of Science and Nature

Overview of Some Equipment Used in Our Industry-Leading, ISO 17025–accredited Laboratory

Unrivalled Testing

We put our faith in science, not in our suppliers. That's why we invest in the most advanced technology and employ a team of 22 dedicated scientists to test each and every lot of each and every ingredient. Without compromise. It's an expensive process that our competition simply is not willing to invest either the time or money into, but it's vital to ensuring we are able to offer your customers the highest-quality, most effective products available.

4 UHPLCs: Ultrahigh-Performance Liquid Chromatographs **3 HPLCs High-Performance Liquid Chromatographs** (not shown)

These versatile, high-precision machines determine both the identity and quantity of complex molecules, including fat- and water-soluble vitamins. This allows us to identify and differentiate various compounds present in complex mixtures.

1 ICP-MS: Inductively Coupled Plasma–Mass Spectrometer **1 ICP-OES: ICP–Optical Emission Spectrometers** (not shown)

Specializing in identifying and quantifying metals and minerals, ICP-MS validates their elemental quantities within formulas. It also detects low-level trace-metal contamination including mercury, arsenic, lead, and cadmium. This unique technology is able to detect compounds down to parts per trillion (10^{-12}).

2 Spectrophotometers

This niche instrument employs intense light to measure enzymatic potency. Dynamic, naturally sourced enzymes including papain and bromelain require validation of biological activity before inclusion in New Roots Herbal formulas.

1 UPLC/MS (LC/MS-Triple Quad): Ultra-Performance Liquid Chromatograph / Mass Spectrometer–Dual Detector

Determines identities and quantities of therapeutic marker compounds within botanical extracts. It's also used for amino-acid identification and quantification. Ours can detect compounds down to parts per trillion (10^{-12}) rather than parts per million (10^{-6}) or per billion (10^{-9}) like the competition.

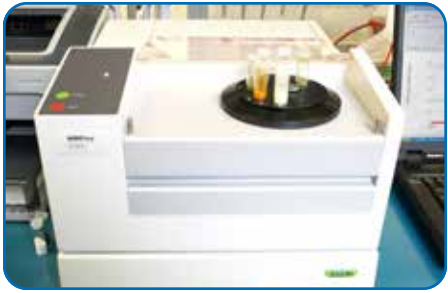

1 HTPLC: High-Precision Thin-Layer Chromatograph

HTPLC is used to fingerprint the identity of different components within botanical materials. It is also used to detect fungal-based toxins.

At the Crossroads of Science and Nature

Overview of Some Equipment Used in Our Industry-Leading, ISO 17025–accredited Laboratory

1 NIRS: Near-Infrared Spectroscope

Infrared technology is used to identify raw materials thanks to the electromagnetic radiation absorbed from molecular bonds of molecules present in the sample. It differentiates genus and species.

2 GC-FID/MS: Gas Chromatographs–Flame Ionization Detectors /Mass Spectrometers

Identifies and measures specific fatty acids present in Wild Omega 3, our industry-leading Wild Oregano C93, and exotic and essential oils. Its specific technology also detects the presence of impurities.

1 Disintegration Tester

Internationally accepted by the US Pharmacopoeia and used by reputable scientists around the world, it effectively mimics exposure to harsh stomach acid. It is used to verify the integrity of our GPS™ enteric-coated capsule following exposure to destructive stomach acid. It also proves that competitors' capsules leak and disintegrate, allowing stomach acid to destroy the probiotics within.

1 GC-Headspace

Residual solvents from extraction processes rank among the critical quality-control concerns for natural health products. This machine is employed to guarantee the purity of all New Roots Herbal products.

GC-MS/MS: Gas Chromatograph Coupled with a Triple-Quadrupole Mass Spectrometer

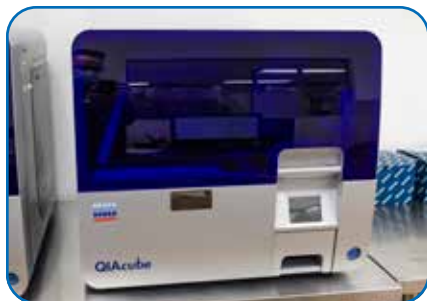

With the capacity to resolve complex mixtures or sample extracts containing hundreds of compounds, it is extremely useful for the detection of traces of pesticides and other types of organic contaminants. It may be used to analyze solid, liquid, or gaseous elements. Samples are vaporised into the gas phase and separated into their various components. The detection limit is in the femtogram level (1.0×10^{-15} g) or parts per quadrillion, for the most precise testing available.

At the Crossroads of Science and Nature

Overview of Some Equipment Used in Our Industry-Leading, ISO 17025–accredited Laboratory

DNA GMO Identification

Our lab is set up with state-of-the-art DNA extraction and analysis equipment. This allows us to identify possible GMO DNA and reject anything suspicious. This ensures all products sent to market are non-GMO.

2 QIAcubes

Streamlining DNA purification, the QIAcube automates this once-tedious process for DNA extraction in test samples before GMO testing. This automated system ensures reproducible results with minimal hands-on time, reducing human errors and enhancing process confidence.

1 NanoDrop UV/VIS Spectrophotometer

Utilizing just a minuscule droplet of sample, this instrument precisely quantifies purified DNA content. This efficient tool offers both qualitative and quantitative insights, while conserving sample volume for diverse GMO analyses.

1 Rotor-Gene Q Thermocycler

A pivotal component for GMO detection and quantification via DNA, this instrument utilizes real-time polymerase chain reaction (qPCR) technology. This workhorse machine amplifies trace GMO fragments to detectable and measurable levels, enabling accurate analysis.

GMO Testing in Our State-of-The-Art Lab

New Roots Herbal has always prioritized non-GMO ingredients, choosing to validate their purity in an ISO 17025–accredited laboratory the first chance offered. Today more than ever, consumers are insisting on non-GMO products. They want the assurance that product compositions are completely natural and unaltered. By choosing to purchase non-GMO products, consumers are also using their purchasing power to demonstrate that they have concerns about the potential health and environmental impacts of genetically modified organisms in our food supply. Non-GMO testing in an ISO 17025–accredited laboratory provides transparency and credible standards, allowing consumers to make choices that support their health while also contributing to sustainable and responsible consumption practices.

Our testing lab, N.H.P. Laboratories, obtained its certification as a Non-GMO Project Approved Laboratory in 2022. The Butterfly logo has become synonymous with consumer trust for product quality and validated absence of genetically modified organisms and highlights our commitment to a transparent, natural, non-GMO food system.

At the Crossroads of Science and Nature

Overview of Some Equipment Used in Our Industry-Leading, ISO 17025–accredited Laboratory

State-of-the-Art Microbiology Department

Our microbiology department enhances our laboratory’s capabilities by analyzing the microbiological attributes of all the raw ingredients we source, and then again once the products are made—all to USP standards, which is vital for quality-assurance testing. Our primary objective is not only to meet but to exceed consumer expectations regarding the safety of their New Roots Herbal supplements. We prioritize this approach to ensure that we never compromise on any aspect that could potentially lead to the dissemination of contaminants such as *Salmonella* or *Escherichia coli*.

Equipped with 2 autoclaves for the eradication of microorganisms, 1 cryogenic freezer designed for long-term storage of reference microbial strains, 2 laminar air flows to

reduce and control viable and nonviable particulates, our microbiology department employs state-of-the-art technology for phenotypic identification; methods employed allow the detection of pathogenic species such as *Enterobacteriaceae*, *E. coli*, *Salmonella*, and bacteria such as *Pseudomonas aeruginosa* and *Staphylococcus aureus*.

Our microbiology department completes our laboratory’s services, alongside core chemistry, enzymology, and the GMO unit, providing end-to-end analytical support for all New Roots Herbal products. Our unwavering commitment to product quality, regulatory compliance, transparency, and accountability is what continues to set us apart from our competitors, fostering trust and loyalty for New Roots Herbal.

← Colony Counter

Equipped with a magnifying glass, it is used to enumerate bacteria and fungi colonies growing on a Petri dish, ensuring that the microbiology status of a sample is accurately reported.

Four Incubators ►

Incubation systems provide higher temperature uniformity and stability for reproducible results. It allows the laboratory to conduct several analyses concurrently, so that finished goods can be released as soon as possible.

← Biosafety Cabinet Class 2

This is the recommended environment for laboratories working with pathogenic fungi and bacteria such as *Escherichia coli* and *Staphylococcus aureus*, as exposure to them can pose a health hazard. Staff and environment safety is of the utmost importance.

Vitek 2 Compact ►

This automated microorganism identification system is a state-of-the-art technology platform for phenotypic characterization employed for detection of *Enterobacteriaceae*, *E. coli*, *Salmonella*, *Pseudomonas aureus*, *Staphylococcus aeruginosa*, etc.

Acetyl-L-Carnitine

750 mg

capsules

**Diabetic Neuropathy Pain Relief
Reduces Fatigue**

Acetyl-L-carnitine helps to relieve pain associated with diabetic neuropathy. Helps optimize cellular energy production (fatty acid metabolism). Helps to support cognitive health and/or brain function. Helps reduce fatigue.

Each vegetable capsule contains

Acetyl-L-carnitine hydrochloride..... 750 mg

Providing:

Acetyl-L-carnitine 637.5 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: For relief of pain associated with diabetic neuropathy: Take 1 capsule four times daily or as directed by your health-care practitioner. Take with food. Do not exceed 4 capsules in a 24-hour period. All other uses: Take 1 capsule two or three times daily. Start with one capsule twice daily with food, and gradually increase to 1 capsule three times daily with food or as directed by your health-care practitioner. Do not exceed 3 capsules in a 24-hour period.

Duration of use

Consult a health-care practitioner for use beyond 6 months.

Argan Oil

Certified Organic

Moisturizer · Skin · Hair · Nails

Hand-picked by a women's cooperative in Morocco, our **organic** argan oil provides fast-absorbing nourishment for your hair, nails and skin. Argan oil also reduces the look of wrinkles and stretch marks, while leaving your skin supple and moisturized with a fresh youthful glow.

Each bottle contains

Organic raw argan (*Argania spinosa*) seed oil, cold-pressed, nondeodorized . 50 ml
Organic rosemary (*Rosmarinus officinalis*) extract

Ingredients

Argania spinosa seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face, neck, body, hair, or nails. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath, before bedtime.

New Zealand Beef Bone Broth Protein powder

Grass-Fed · 27 g Proteins (90% Protein), 110 Calories per Portion · 100% Pure · Antibiotic-, BSE- and Hormone-Free
Gluten-Free · Non-GMO

Our slow-simmered, traditionally made beef bone broth is made from the bones and connective tissues of New Zealand grass-fed cattle. Bone broth is a rich source of collagen, featuring the entire spectrum of amino acids, as well as vitamins B3, B6, and B12, instrumental to aid normal growth and development, and as a factor in energy metabolism.

Ingredient

Grass-fed beef bone broth protein powder.

Directions of use

Pump up the protein content of soups, stews, and sauces; or serve it solo as a delicious bouillon “on-the-go.”

For a broth: Add 3 rounded tablespoons (30 g) per 300 ml of hot water; if needed, add more water. Salt to taste.

For recipe ideas, visit newrootsherbal.com/recipes.

New Zealand

Beef Bone Broth Protein + Organic Fermented Ginger

powder

Grass-Fed · 25 g Proteins (83% Protein), 110 Calories per Portion · Antibiotic-, BSE- and Hormone-Free · 100% Natural Gluten-Free · Non-GMO

Our slow-simmered, traditionally made beef bone broth is made from the bones and connective tissues of New Zealand grass-fed cattle. Bone broth is a rich source of collagen, featuring the entire spectrum of amino acids, as well as vitamins B3, B6, and B12, instrumental to aid normal growth and development, and as a factor in energy metabolism. The smooth flavour and soothing aroma of fermented ginger adds a subtle finish to the flavour profile while amplifying its health benefits.

Ingredient

Grass-fed beef bone broth protein powder and organic fermented ginger powder.

Directions of use

Pump up the protein content of soups, stews, and sauces; or serve it solo as a delicious bouillon “on-the-go.” **For a broth:** Add 3 rounded tbsp. (30 g) per 300 ml of hot water; if needed, add more water. Salt to taste. **For recipe ideas, visit newrootsherbal.com/recipes.**

Beet (Fermented): Organic Fermented Red Beet

Whole-Food Powder

Unsweetened and No Flavour
Added · Gluten-Free · Non-GMO
10 Calories per Portion · 100% Pure

A powerful dietary source of health-promoting nutrients, our tasty fermented red beet root powder brings to your body the great properties of phenols, while enhancing the benefits of nitric oxide (NO) within. In addition, the fermentation process consumes the beet's naturally occurring sugar and increases its nutrient bioavailability.

Ingredient

Organic fermented red beet root.

Directions of use

Add to water, smoothies, fruit juice, garden cocktails, yogurts, baked goods, signature dips, spreads, or hot beverages.

Cacay Seed Oil

Wildcrafted

Reduces the Signs of Aging

Wildcrafted and sustainably sourced in Colombia's Amazon, our pure, cold-pressed cacay seed oil is blessed with nutrients that invigorate and rejuvenate your skin for a more youthful appearance.

Each bottle contains

Wildcrafted cacay (*Caryodendron orinocense*) seed oil, cold-pressed 15 ml with added organic rosemary (*Rosmarinus officinalis*) extract.

Ingredients

Caryodendron orinocense seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face and neck. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath.

Cedarwood Pure Essential Oil

Cedrus deodara

100% Pure · Clean · Unadulterated

Aroma: Woody, fresh, resinous.

Attributes: Relaxing, reassuring, strengthening, empowering.

Scent note: Base Note 🕯️

Each drop contains

Himalayan cedar (*Cedrus deodara*) wood essential oil, steam-distilled 100%

Active compound

Himachalene.

Directions of use

Add a few drops to your diffuser, favourite carrier oil, soap, lotion, or massage oil. Do not use essential oils undiluted. Avoid contact with eyes and mucous membranes; if this happens, rinse thoroughly with vegetable oil. Do not use if you are pregnant or breast-feeding; if you have epilepsy; or if you have broken, irritated, or sensitive skin. May cause allergic reaction; in which case, discontinue use and consult a health-care practitioner.

Duration of use

For external and occasional use only.

Chaga Tea chunks

Immunity · European Wild-Crafted

Our wild-crafted chaga is 100% sustainably sourced from living trees in Europe, not causing any damage to the host tree.

Source of fungal polysaccharides with immunomodulating properties. Source of antioxidants.

Ingredient

Wild chaga (*Inonotus obliquus*) mushroom chunks.

Directions of use

Adults: Add 3 g of chaga chunks to 1 litre of water. Simmer for 10–20 minutes to make a tonic, or several hours to make a concentrate. Temperature range should be between 50 and 70 °C; never a rolling boil. Serve hot or let cool to room temperature, then refrigerate up to 14 days. Store used chaga chunks in freezer, and reuse 3–5 times or until water runs clear. After several brews, you may wish to break chaga chunks into smaller pieces to enable hot water to penetrate further and extract more beneficial compounds. **Chunk size varies from bag to bag, so feel free to experiment to find your optimum desired strength.**

Children's ADHD Balance

chewable softgels

Improves Focus and Attention
Mild Lemony Taste

May help to improve concentration levels in school age children with attention deficit hyperactivity disorders (ADHD). May help reduce the symptoms associated with ADHD in school-age children exhibiting excessive thirst and dry skin. Helps support cognitive health (brain function and development) and cardiovascular health. Helps the development of the eyes and nerves in children up to 12 years of age. Source of omega-3 fatty acids for the maintenance of good health.

Each chewable softgel contains

Organic evening primrose (*Oenothera biennis*)
seed oil, hexane-free 260 mg

Providing:

gamma-Linolenic acid (GLA) (10%) 26 mg
Fish-oil omega-3 fatty acids from wild,
deep-sea whole sardines (*Sardina pilchardus*)
and whole anchovies (*Engraulis encrasicolus*) 325 mg

Providing:

Eicosapentaenoic acid (EPA) 145 mg
Docosahexaenoic acid (DHA) 87.5 mg

Other ingredients

Natural lemon oil and vitamin E (D-alpha-tocopherol, from non-GMO sunflower) in a softgel composed of bovine gelatin, glycerine, and purified water.

Directions of use

Children and adolescents (3–18 years old): Chew 1 softgel four times daily or as directed by your health-care practitioner. Do not allow child to swallow the softgel whole.

Collagen

62-63

Look Great, Feel Better!

with Our Collagen Products

Multi 5 Collagen powder

Protein-Building Peptides
5 Types of Food-Sourced Collagen:
I, II, III, V, and X

Collagen, a kind of protein naturally produced by the body, is crucial for skin's strength and elasticity, muscle strength, bone strength, and more. Keto- and paleo-friendly, this potent blend of 5 types of collagen is sourced from cattle, fish, and poultry. Free of GMOs, easily digestible, and gut-friendly.

Ingredients

Hydrolyzed bovine collagen, beef bone broth collagen, chicken collagen, eggshell membrane collagen, and hydrolyzed fish collagen. Contains: Eggs, fish (cod [*Gadus morhua*], saithe [*Pollachius virens*], haddock [*Melanogrammus aeglefinus*], and plaice [*Pleuronectes platessa*]).

Directions of use

Add 2 tablespoons to smoothies and blended drinks or shaker cups. Use in your favourite recipes when baking as well!

New Product! Since August 2023

Cornmint
Pure Essential Oil
Mentha arvensis

100% Pure · Clean · Unadulterated

Aroma: Fresh, herbal, minty.

Attributes: Refreshing, stimulating, revitalizing.

Scent note: Top Note 🌊

Each drop contains

Cornmint (*Mentha arvensis*) leaf essential oil, steam-distilled 100%

Active compounds

Menthol and menthone.

Directions of use

Add a few drops to your diffuser, favourite carrier oil, soap, lotion, or massage oil. Do not use essential oils undiluted. Avoid contact with eyes and mucous membranes; if this happens, rinse thoroughly with vegetable oil. Do not use if you are pregnant or breast-feeding; if you have epilepsy; or if you have broken, irritated, or sensitive skin. May cause allergic reaction; in which case, discontinue use and consult a health-care practitioner.

Cranberry Seed Oil
 Certified Organic

Reduces the Look of Aging

An oil that reduces the look of aging that will deeply hydrate, resulting in smoother- and firmer-looking skin. Rich in antioxidants; vitamins A and E; as well as omega-3, -6, and -9; this beauty oil will provide all the nutrients needed for healthy-looking, glowing, and youthful skin.

Each bottle contains

Organic cranberry (*Vaccinium macrocarpon*) seed oil, cold-pressed, nondeodorized. 15 ml with added organic rosemary (*Rosmarinus officinalis*) extract.

Ingredients

Vaccinium macrocarpon seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face and neck. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath.

✓ Probiotics · ✓ Urogenital Health · ✓ Women's Health

An open-label clinical study (*detailed report next page*)

was conducted by Nafarco Pharmacies to evaluate

the effectiveness of **New Roots Herbal's**

D-Mannose & Cranberry formula in eradicating

Escherichia coli bacteria in women with recurrent cystitis.

Twenty women took 2 scoops twice daily for two days;

then, 2 scoops once daily for five days; finally, after

7 days of rest, ⅔ scoops daily for 10 days.

Symptoms improved after the first week of treatment,

and were reduced by 90% over the entire treatment

period. For 84% of the cohort studied, no recurrence

occurred. Also, a trend of effectiveness was observed in

relation to body mass index (BMI).

The results spoke for themselves, as all participants would either take the product again or recommend it to family or friends.

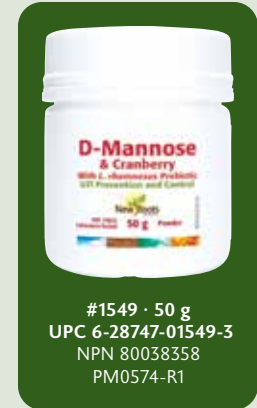

The Natural Treatment of Recurring Cystitis with D-Mannose & Cranberry

OBJECTIVE

The objective of this open-label clinical study was to investigate the efficacy and effectiveness of D-Mannose & Cranberry supplement on the eradication of the bacterium *Escherichia coli* in women with recurrent cystitis. The trial was conducted by Nafarco Pharmacies as part of the "Different Pharmacy Plan."

INGREDIENTS

D-Mannose..... 4,800 mg
 Cranberry (*Vaccinium macrocarpon*) fruit 107× concentrate 600 mg
Lactobacillus rhamnosus R0011 500 million CFU (2.5 mg)
 and traces of milk and soy

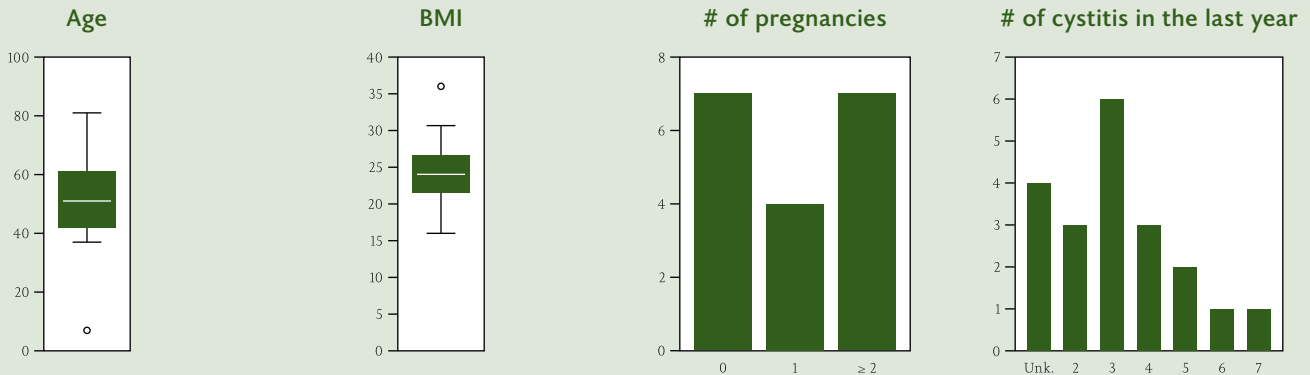

POSOLOGY

3 teaspoons two times per day, for two days. 3 teaspoons, once per day until the end of the bottle. 7 days of rest. 1 teaspoon once per day for 10 days.

MATERIALS AND METHODS

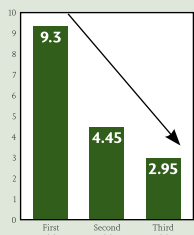

The study population consisted of 20 women with recurrent cystitis who met the inclusion and exclusion criteria. The study demographic information was as follows:

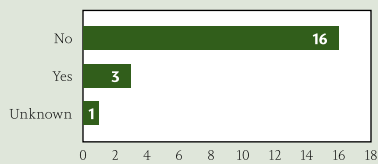

RESULTS

Measurement scale in symptomatology ranging from 0 (absence of symptoms) to 32 (maximum symptomatology).

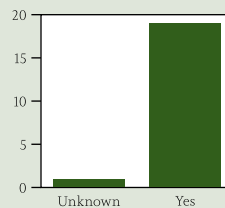

Symptom progression in the study population

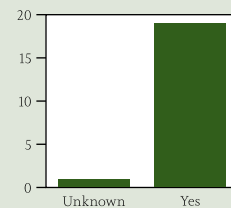

Recurrence at follow-up

Would take again

Would recommend

CONCLUSIONS

- The symptomatology of 90% of the study population has been reduced throughout the treatment period.
- Symptoms were reduced as of the first visit (1 week of treatment).
- In 84.21% of the study population, no recurrence occurred at the follow-up after the end of the treatment period.
- One trend in effectiveness was observed in relation in BMI.
- 100% of the respondents would take the product again or recommend it to family or friends.

Elderberry Fruit

whole dried berries

Sambucus nigra ssp. nigra
From Northern Europe
Premium Quality

Dried elderberry fruit has never tasted better. They are air-dried to preserve its distinctive rich flavour, with a touch of natural tartness. Cooked berries (simmered for at least 10 minutes) may be added to cereals, oatmeal, granola, smoothies, or yogurt; used as garnish; and for baking.

Ingredient

Whole dried Northern-European elderberry fruit. Does not contain any stems, leaves, or bark.

How to make elderberry tea

Add 1 teaspoon of berries to 250 ml of hot water. Let steep for 5 to 10 minutes. Strain and serve. For stronger tea, steep longer, simmer on stove top, or use more berries. Soaked berries may be re-steeped a second time.

Tip: Add cloves, ginger, and cinnamon; sweeten to taste with your favourite New Roots Herbal sweetener.

Do not ingest raw, uncooked European elderberries.

Energy Cleanse kit

Easy and Effective Cleansing Program
Detoxify and Revitalize
30-Day Program

Energy Cleanse I: Milk thistle is traditionally used in herbal medicine to help relieve digestive disturbances/dyspepsia. Provides antioxidants. **Energy Cleanse I** is used as a liver protectant; to help to support liver function. • **Energy Cleanse II:** Used in herbal medicine to promote bowel movement and for the short-term relief of occasional constipation. **Energy Cleanse II** is to be used as a laxative.

Energy Cleanse I: Each vegetable capsule contains

Milk thistle (*Silybum marianum*) seed extract,
80% silymarin..... 250 mg
Black Spanish radish (*Raphanus sativus* var. *niger*) root... 175 mg
Red beet (*Beta vulgaris*) root..... 150 mg
N-Acetyl-L-cysteine..... 25 mg
Artichoke (*Cynara cardunculus*) leaf extract, 5% cynarin... 25 mg
Calcium D-glucarate..... 25 mg
Dandelion (*Taraxacum officinale*) root extract, 3% flavonoids... 25 mg
DL-alpha-Lipoic acid..... 25 mg
Turmeric (*Curcuma longa*) root extract, 95% curcuminoids,
providing curcumin I, demethoxycurcumin,
and bisdemethoxycurcumin..... 25 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Energy Cleanse II: Each vegetable capsule contains

Chinese rhubarb (*Rheum officinale*) root..... 150 mg
Cape aloe (*Aloe ferox*) leaf..... 125 mg
Cascara sagrada (*Frangula purshiana*) bark..... 125 mg
Magnesium hydroxide..... 125 mg
Marshmallow (*Althaea officinalis*) root..... 25 mg
Slippery elm (*Ulmus rubra*) bark..... 25 mg
Ginger (*Zingiber officinale*) rhizome..... 20 mg
Irish moss (*Chondrus crispus*) herb..... 20 mg
Beleric (*Terminalia bellirica*) fruit..... 8.33 mg
Haritaki (*Terminalia chebula*) fruit..... 8.33 mg
Indian gooseberry (*Phyllanthus emblica*) fruit..... 8.33 mg

Homeopathics

Calcium fluoride (*calcarea fluorica*, CaF₂) 6×, iron phosphate (*ferrum phosphoricum*) 3×, potassium chloride (*kali muriaticum*) 3×, sodium chloride (*natrum muriaticum*) 6×, sodium phosphate (*natrum phosphoricum*) 3×, sodium sulfate (*natrum sulphuricum*) 3×.

Other ingredients

Lactose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Energy Cleanse I: Adults: Take 1 capsule with breakfast and 1 capsule with lunch, or as directed by your health-care practitioner.

Energy Cleanse II: Adults: Take 2 capsules in the evening or as directed by your health-care practitioner. Allow at least 6 to 12 hours for laxative effect to occur. If you are taking other medications or health products, take this product a few hours before or after them.

Essence:

New Roots Essence tincture

Removes Accumulated Waste
Products via Kidneys, Skin, and
Mucous Membranes

Traditionally used in herbal medicine as a diuretic, diaphoretic, and alterative to help remove accumulated waste products via the kidneys, skin, and mucous membranes.

Each tablespoon contains

a crude quantity equivalent of

Organic burdock (*Arctium lappa*) root..... 172 mg
Organic sheep sorrel (*Rumex acetosella*) herb top..... 86 mg
Pau d'arco (*Tabebuia heptaphylla*) inner bark..... 30.7 mg

Organic slippery elm (*Ulmus rubra*) bark..... 21 mg
Organic blessed thistle (*Cnicus benedictus*) herb top..... 8 mg
Organic red clover (*Trifolium pratense*) herb..... 8 mg
Organic watercress (*Nasturtium officinale*) herb..... 8 mg
Organic rhubarb (*Rheum plmatum*) root..... 5 mg

Other ingredients

Organic whole Norwegian kelp (*Ascophyllum nodosum*), organic alcohol 25% (from sugarcane), glycerin, and purified water. Steeped in organic alcohol (from organic sugarcane) for 21 days.

Directions of use

Adults: Take 3 tablespoons in the morning and 4 tablespoons in the evening or as directed by your health-care practitioner. Optional: To reduce the alcohol content, add 4 ounces of boiling water and let sit for 5 minutes. Can also be mixed with orange juice or your favourite juice.

Duration of use

For occasional use only.

100% Pure/Organic Essential Oils

About Our Essential Oils...

When you select New Roots Herbal, you benefit from a product that has been tested for identity, purity, and potency in our industry-leading, ISO 17025-accredited laboratory. Aromatherapy is at the crossroads of art and science, where naturally extracted essences of botanical origin invigorate body, mind, and spirit. It can also serve to bridge the gap between body and mind to stimulate our body's innate ability to heal itself.

How to Use an Essential Oil?

- In a traditional diffuser.
- Mix with water in spray bottle to create organic air freshener.
- Add to unscented creams, massage oils, or liquid soaps.

A Variety of Uses

Essential oils offer an excellent alternative to artificial scents often used in products such as **perfumes, cosmetics, air fresheners, cleaning products, candles, massage oils,*** etc.

Pleasant aromas can have a positive impact on our emotions and wellbeing, with varying scents having different influences on the body, mind, and spirit. There is no limit to using aromas to set the mood; energizing before an important event, calming to recuperate from a tough day, or serene to create a peaceful sleep environment.

*For topical use, mix with carrier oil.

Buyer Beware!

According to the Aromatic Plant Research Center, it has been found that an **alarming 80% of all essential oils available in the market are adulterated**, indicating a significant prevalence of impurities or contaminants in these products.

Contaminated essential oils can be harmful to your health, as they may contain dangerous levels of lead, mercury, cadmium, glyphosate, DDT, PCB, ammonia, hexane, carcinogenic and toxic solvents, or other chemicals, potentially leading to respiratory irritation and other serious health concerns.

Keep It Pure!

Considering their wide range of uses, essential oils can easily be absorbed via the respiratory tract or through the skin. Quality and safety standards are crucial.

All New Roots Herbal essential oils are tested in our state-of-the-art ISO 17025-accredited laboratory to ensure they do not contain additives and are safe from heavy metals, herbicides, pesticides, solvents, and other environmental contaminants.

Tea Tree Organic Essential Oil

Melaleuca alternifolia
100% Pure · Certified

Used in aromatherapy to help relieve
colds/cough. Helps to improve symptoms
of fungal nail-bed infections. Helps treat
acne pimples.

Each bottle contains

Organic tea tree (*Melaleuca alternifolia*)
leaf or twig essential oil 100%

Active compounds

Terpinen-4-ol, alpha- and gamma-terpinene.

Directions of use

Adults: • For aromatherapy use: Mix 1 drop of essential oil in 1 tsp. (5 ml)
of carrier (vegetable) oil (1% essential oil). Rub and/or massage into skin
until solution vanishes. For local application (10% or less of body surface
area): Apply to affected area up to three times per day. For acne use:
Mix 5 drops of essential oil in 1 tsp. (5 ml) of carrier (vegetable) oil (5%
essential oil). Cleanse skin thoroughly before applying the product. Apply
product to affected areas one to three times daily. For nail fungus use:
Do not dilute in carrier oil. Apply sparingly to affected nail(s) twice daily.
Avoid contact with skin. For all uses: Do not apply undiluted essential
oils to skin. Not for oral use. Avoid contact with eyes and mucous
membranes; if this happens, rinse thoroughly with vegetable oil.

Duration of use

For occasional use only.

Tingsation Essential Oil

for Tingling Toes and Fingers

For sensitive or tingling toes and fingers.

Each bottle contains

Lavender (*Lavandula angustifolia*) essential oil,
geranium (*Pelargonium graveolens*) essential
oil, bluegum (*Eucalyptus globulus*) essential
oil, bergamot (*Citrus bergamia*) essential
oil, tea tree (*Melaleuca alternifolia*) essential
oil, organic alcohol from sugarcane, and
tetrahydropiperine (from black pepper
[*Piper nigrum*]).

Directions of use

Adults: For topical use only; not for oral use. Apply to the
affected area (toes and fingers) up to 4 times per day. Massage
into skin until solution is completely absorbed. Do not use
on broken skin. Do not tightly bandage. Do not apply with
external heat, such as an electric heating pad, as this may result
in excessive skin irritation or burning sensation.

Duration of use

100% Pure/Organic Essential Oils

Identify Scent Notes

Understanding scent notes is key to creating customized essential oil blends that evoke a desired mood, whether it's relaxing, romantic, or invigorating. They play a crucial role in defining an essential oil's fragrance profile and determining how long it will last.

Three main fragrance notes—top, middle, and base—can be used to formulate a balanced and lasting fragrance for every need or occasion.

Top Note

- First scent to be noticed, first to evaporate
- Light, uplifting aroma
- Perceptible for approximately 20 minutes, composing 15–20% of the blend

Middle Note

- Defines the mood of the blend
- Floral, herbal scents
- Perceptible for approximately 4 hours, composing 50–80% of the blend

Base Note

- Anchoring the aroma of the blend, slowest to evaporate
- Deeper, earthier, resinous, sweet, and warm tones
- Perceptible for approximately 8 hours, composing 10–30% of the blend

Scent Profiles and Harmony

Essential Oil	Scent Profile	Scent Note	Scent Attributes
Bergamot	Citrus, floral, spicy, sweet	Top Note	Vibrant, inspiring, uplifting
Cedarwood	Woody, fresh, resinous	Base Note	Relaxing, reassuring, strengthening, empowering
Citronella	Fresh, citrus, herbal, fruity	Middle Note	Purifying, reviving, cleansing
Clary Sage	Herbal, earthy, sweet, floral	Top Note	Inspiring, focusing, centring
Clove Bud	Warm, aromatic, spicy	Base Note	Warm, soothing, reassuring
Clove Leaf	Warm, aromatic, spicy	Base Note	Warm, comforting, calm
Cornmint	Fresh, herbal, minty	Middle Note	Refreshing, stimulating, revitalizing
Eucalyptus	Green, fresh, woody	Middle Note	Rejuvenating, clarifying, deep
Geranium	Floral, green, soft, sweet	Middle Note	Nostalgic, purifying, balancing
Ginger	Warm, spicy, earthy, woody	Middle Note	Soothing, clarifying, energizing
Lavender	Floral, herbal, earthy, sweet	Middle Note	Quieting, serene, zen
Lemon	Fresh, citrus, sweet	Top Note	Refreshing, cleansing, energizing
Lemon Eucalyptus	Aromatic, fresh, citrus	Middle Note	Refreshing, cleansing, inspiring
Peppermint	Fresh, herbal, minty	Top Note	Refreshing, stimulating, revitalizing
Rosemary	Herbal, fresh, aromatic	Middle Note	Purifying, uplifting

Identity and purity are critical for essential oils. Our GC-MS validates that our essential oils are authentic and 100% pure. It also screens for over 80 common pesticides.

Exotic Oils Collection

Luxurious and Revitalizing Exotic Oils That Will Bring out Your Natural Glow!

We're excited to present our collection of exotic oils, ethically sourced from around the world. Our entire collection is **certified organic*** and cold-pressed or extracted by solvent-free supercritical CO₂ extraction. This ensures you're receiving the purest, most nutrient-rich product available to maximize their benefits.

New Roots Herbal has forged a reputation for producing premium-quality, non-GMO natural health products. All oils selected for our Exotic Oils Collection are grown without the use of chemical fertilizers or toxic sprays. We have also validated our producers for sustainable agricultural ethics.

Our oils are tested in our own industry-leading ISO 17025–accredited analytical laboratory for identity, purity, heavy metals, pesticides, and environmental toxins. Our exhaustive battery of tests also guarantees our exotic oils are not diluted with inferior carrier oils.**

*With the exception of Cacay Seed Oil which is wildcrafted.

**Although not diluted with vegetable or other carrier oils, our exotic oils do contain a minute amount of vitamin E for stability.

Argan Oil Certified Organic

Moisturizer · Skin · Hair · Nails

Hand-picked by a women's cooperative in Morocco, our **organic** argan oil provides fast-absorbing nourishment for your hair, nails and skin. Argan oil also reduces the look of wrinkles and stretch marks, while leaving your skin supple and moisturized with a fresh youthful glow.

Each bottle contains

Organic raw argan (*Argania spinosa*) seed oil, cold-pressed, nondeodorized . . . 50 ml
Organic rosemary (*Rosmarinus officinalis*) extract

Ingredients

Argania spinosa seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face, neck, body, hair, or nails. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath, before bedtime.

Fibre Ultra Rich powder Plantago + Inulin

Promotes Regularity and Cleansing

Psyllium is used in herbal medicine as a bulk-forming laxative and to promote bowel movements by increasing bulk volume and water content. Psyllium provides gentle relief of constipation and irregularity.

Each teaspoon contains

Psyllium (<i>Plantago ovata</i>) husk	2,128 mg
Roselle (<i>Hibiscus sabdariffa</i>)	126 mg
Inulin (from chicory root [<i>Cichorium intybus</i>])	100 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	53 mg
Licorice (<i>Glycyrrhiza glabra</i>) root	53 mg

Other ingredient

Stevia (*Stevia rebaudiana*) leaf.

Directions of use

Adults ≥ 19 years old: Take 1 teaspoon twice daily. For each gram of psyllium, take with 30 ml of liquid (water, milk, fruit juice, or similar aqueous beverage). Drink immediately and maintain adequate fluid intake. Effects observed 12–24 hours after the first dose; results may take 2–3 days. If you are taking other medications, take this product 2 hours before or after them.

Duration of use

Avoid long-term use, and consult a health-care practitioner for use beyond 6 weeks.

Note: Also take 1–2 capsules of enteric-coated *Acidophilus Ultra* each day. Start progressively or as directed by your health-care practitioner. Our *Acidophilus Ultra* capsule is protected by an enteric coating. The capsule must survive stomach acid and be delivered to the small intestine in order to work. The beneficial activity of *acidophilus* capsules without an enteric coating is destroyed in the stomach by stomach acid.

Complete Vision Formula

Supports Optimal Eye Health
Reduces Risk of Cataracts and AMD

Provides antioxidants for the maintenance of eye health. Helps to maintain and support eyesight and eye health in conditions (associated with sunlight damage) such as cataracts and age-related macular degeneration. Helps to reduce the risk of developing cataracts. Helps to improve macular pigment optical density.

Each vegetable capsule contains

Lutein from marigold flower extract (*Tagetes erecta*) 5.5 mg

Zeaxanthin (2 mg), from marigold (*Tagetes erecta*) extract 10 mg

Astaxanthin (200 mcg), from *Haematococcus pluvialis* extract 13.33 mg

Bilberry (*Vaccinium myrtillus*) European fruit extract,

25% anthocyanosides 80 mg

Vitamin C (ascorbic acid) 170 mg

Vitamin B3 (niacinamide) 75 mg

Grape (*Vitis vinifera*) seed extract,

80% oligomeric proanthocyanidins 50 mg

DL-alpha-Lipoic acid 50 mg

Fruit blend, 20% multianthocyanidins* 25 mg

* Provided by bilberry fruit and extract, grape seed extract, and grape skin extract

L-Glutathione (L-glutathione reduced) 25 mg

Vitamin B3 (inositol hexanicotinate, flush-free) 25 mg

Vitamin B2 (riboflavin) 25 mg

Vitamin E (D-alpha-tocopheryl acid succinate) 20.1 mg AT (30 IU)

Lycopene (500 mcg), from tomato

(*Solanum lycopersicum*) flesh extract 10 mg

Vitamin B1 (thiamine hydrochloride) 5 mg

Vitamin B2 (riboflavin-5'-phosphate sodium) 5 mg

Vitamin B6 (pyridoxine hydrochloride) 5 mg

Zinc (from zinc citrate) 5 mg

Vitamin B6 (pyridoxal-5'-phosphate) 2 mg

Copper (from copper gluconate) 500 mcg

Selenium (from yeast-free L-selenomethionine) 50 mcg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule twice daily with a meal containing oil/fat or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

Duration of use

Consult a health-care practitioner for use beyond 3 months.

FORSIGHT: NATURAL V. SYNTHETIC

Our lutein and zeaxanthin are from marigold.

Our lycopene is from tomatoes. Phytonutrients should be sourced from their original plant source.

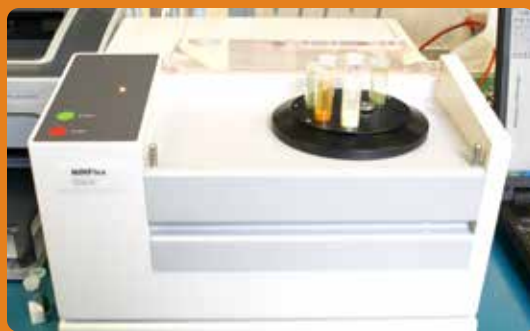

When sources are not listed, they are likely synthetic... and up to 5× cheaper!

Organic Fermented Products

Fermented products become more concentrated during processing. The near-infrared spectroscope (below) ensures a botanical origin, aided by HPTLC to fingerprint the exact material identity. ICP-MS and GC-MS test for heavy metals and pesticides, respectively.

New Zealand

Beef Bone Broth

Protein + Organic Fermented Ginger

powder

Grass-Fed · 25 g Proteins (83% Protein), 110 Calories per Portion · Antibiotic-, BSE- and Hormone-Free · 100% Natural Gluten-Free · Non-GMO

Our slow-simmered, traditionally made beef bone broth is made from the bones and connective tissues of New Zealand grass-fed cattle. Bone broth is a rich source of collagen, featuring the entire spectrum of amino acids, as well as vitamins B3, B6, and B12, instrumental to aid normal growth and development, and as a factor in energy metabolism. The smooth flavour and soothing aroma of fermented ginger adds a subtle finish to the flavour profile while amplifying its health benefits.

Ingredient

Grass-fed beef bone broth protein powder and organic fermented ginger powder.

Directions of use

Pump up the protein content of soups, stews, and sauces; or serve it solo as a delicious bouillon “on-the-go.” **For a broth:** Add 3 rounded tbsp. (30 g) per 300 ml of hot water; if needed, add more water. Salt to taste. **For recipe ideas, visit newrootsherbal.com/recipes.**

Fermenting Is Fantastic!

Fermented foods are not only preserved over long periods of time, but also acquire original and increased organoleptic and nutritional properties. What makes them superfoods are all the nutrients and antioxidants which are created, multiplied, and have become highly bioavailable.

Fermented foods see their nutritional profile rebalanced with a reduced sugar content as well as with a strengthened protein and polyunsaturated fatty acid profile. Their digestibility is enhanced by the probiotic effect, which also improves intestinal flora, provides vitamins, and support the immune system.

Organic

Fermented Turmeric Whole-Food Powder

10 Calories per Portion · 100% Pure
Unsweetened and No Flavour Added
Gluten-Free · Non-GMO

Antioxidant-rich turmeric ranks among the world's superfoods for both health benefits and culinary versatility. Our organic turmeric is naturally fermented for an enhanced flavour profile and ease of intestinal assimilation. It's a great way to invigorate the nutritional quotient of smoothies and soups, while being a great fit for countless culinary applications.

Ingredient

Organic fermented turmeric root.

Recommended use

Add to water, juice, smoothies, or your favourite beverages including hot teas. Can be used in cooking with curries, marinades, vegetables, stir-fry, and stews, as well as for your signature dips or spreads. Try it on popcorn or roasted nuts.

Fish Oils for Body, Mind, and More

Help Support Cardiovascular and Cognitive Health

Hundreds of clinical trials reveal the benefits of naturally sourced omega-3 fatty acids from infancy to adulthood. Wild omega-3 fish oils support cognitive function and cardiovascular health and help lower serum triglycerides. Cold-water fatty fish are the most common dietary sources of omega-3 fatty acids. Furthermore, wild-caught larger fish have higher levels of contaminants, while farm-raised fish have lower levels of the valuable nutrients. Unfortunately,

the average North American falls short for dietary consumption of omega-3 fatty acids. Supplementation with high-potency wild omega-3 fish oil is ideal for the maintenance of your good health. You will also have peace of mind in knowing they have been screened for contamination from heavy metals, which are no match for our ICP-MS analytical instruments. GC-FID further ensures therapeutic amounts of EPA and DHA match our label claim.

Children's ADHD Balance

chewable softgels

Improves Focus and Attention
Mild Lemony Taste

May help to improve concentration levels in school age children with attention deficit hyperactivity disorders (ADHD). May help reduce the symptoms associated with ADHD in school-age children exhibiting excessive thirst and dry skin. Helps support cognitive health (brain function and development) and cardiovascular health. Helps the development of the eyes and nerves in children up to 12 years of age. Source of omega-3 fatty acids for the maintenance of good health.

Each chewable softgel contains

Organic evening primrose (*Oenothera biennis*) seed oil, hexane-free 260 mg

Providing:

gamma-Linolenic acid (GLA) (10%) 26 mg
Fish-oil omega-3 fatty acids from wild, deep-sea whole sardines (*Sardina pilchardus*) and whole anchovies (*Engraulis encrasicolus*) 325 mg

Providing:

Eicosapentaenoic acid (EPA) 145 mg
Docosahexaenoic acid (DHA) 87.5 mg

Other ingredients

Natural lemon oil and vitamin E (D-alpha-tocopherol, from non-GMO sunflower) in a softgel composed of bovine gelatin, glycerine, and purified water.

Directions of use

Children and adolescents (3–18 years old): Chew 1 softgel four times daily or as directed by your health-care practitioner. Do not allow child to swallow the softgel whole.

Active Folate: Better Than Folic Acid

Active Folate

L-5-Methyltetrahydrofolate
1,000 mcg
plus Vitamins B6 and B12

capsules

Helps Reduce the Risk of Neural Tube Defects

L-Methylfolate helps to reduce the risk of neural tube defects when taken daily at least three months prior to becoming pregnant and during early pregnancy. Helps the body to metabolize nutrients; helps in the normal function of the immune system; and helps in tissue formation.

Each vegetable capsule contains

Vitamin B6 (pyridoxal-5'-phosphate) 2 mg
Folate (from calcium L-5-methyltetrahydrofolate) 1 mg
Vitamin B12 (methylcobalamin) 2.8 mcg

Other ingredients

Microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule daily or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

SCIENCE SAYS...

Folate is the naturally occurring, biologically active form of this critical B-complex constituent. Look for calcium-5-methyltetrahydrofolate on the label to be certain you have chosen active folate.

Folic acid is the synthetic version often found in multivitamins and fortified foods. The body does not use synthetic folic acid as efficiently.

GABA

600 mg · With Active-Form B6

capsules

Relaxation

Helps to temporarily promote relaxation. Helps the body to metabolize carbohydrates, fats, and proteins. Helps in tissue formation.

Each vegetable capsule contains

Goji Seed Oil

Certified Organic

Moisturizer for Sensitive Skin

Our goji seed oil is hydrating and reduces the look of aging and of sun spots. It is ideal for sensitive skin.

Each bottle contains

Organic goji (*Lycium barbarum*) seed oil, CO₂ supercritical extract, nondeodorized 15 ml with added natural vitamin E.

Ingredients

Lycium barbarum seed oil and tocopherols.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face and neck. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath, before bedtime.

Green Matcha:

Matcha

powder

First Harvest · Organic Green Tea
Pesticide-Free

Matcha green tea, unlike regular dried green tea, is made using the whole tea leaf, stone-ground to a fine powder. It contains at least three times as much EGCG (antioxidant) and more amino acids. It will give you more energy and boost your metabolism. Our matcha comes from the first harvest of shade-grown tea leaves.

Ingredient

Pure organic premium matcha green tea (*Camellia sinensis*).

Preparation

Mix ½–1 teaspoon in a cup of hot water. Adjust to taste. Can also be used in lattes, baking, and smoothies.

Nutrition Facts • Per ½ tsp. (1 g)

Heart Mag capsules 770 mg Magnesium Orotate

Supports Healthy Cardiac Function
Gentle on the Stomach

Research supports the ability of true magnesium orotate to support cardiac function under stress. Promotes maintenance of healthy muscle function, including that of the heart muscle. Helps maintain the body's ability to metabolize nutrients, maintain a normal electrolyte balance, with tissue formation, and the development and maintenance of bones and teeth. Magnesium and orotic acid exert complementary effects on the biosynthesis of pyrimidine nucleotides, and maintain normal glycogen stores, protein synthesis, ATP levels, and contractile function.

Each vegetable capsule contains

Fully reacted magnesium orotate 770 mg

Providing:

Elemental magnesium 50 mg
Orotic acid 650 mg

Other ingredients

Microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule four times daily or as directed by your health-care practitioner.

Heart Smart Extra Virgin Organic Olive Oil

First Cold-Pressed · Non-GMO

Plant sterol-fortified to promote healthy cholesterol levels. Helps lower total blood and LDL cholesterol. Helps maintain healthy cholesterol levels.

Each tablespoon contains

Plant sterols esters 375 mg
(combined beta-sitosterols, campesterols, and stigmasterols).

Other ingredients

Certified organic extra virgin olive (*Olea europaea*) oil and natural vitamin E (mixed tocopherol concentrate, from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Oleic 56–85%
Linoleic 3.5–20%
Palmitic 7.5–20%
Stearic 0.5–5%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner. Stir into soups, stews, and sauces; or use for light sautéing. Its taste of sweet butter with subtle notes of pear, along with its low acidity level, makes it excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

Certified organic safflower oil, and natural vitamin E (mixed tocopherols from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Linoleic 68–83%
Palmitic 4–10%
Oleic 8–21%
Stearic 1–5%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner. Stir into soups, stews, and sauces; or use for light sautéing. Its clean and crisp flavour is also excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

Heart Smart Organic Sunflower Oil

First Cold-Pressed · Non-GMO

Plant sterol-fortified to promote healthy cholesterol levels. Helps lower total blood and LDL cholesterol. Helps maintain healthy cholesterol levels.

Each tablespoon contains

Plant sterols esters 375 mg
(combined beta-sitosterols, campesterols, and stigmasterols).

Other ingredients

Certified organic sunflower oil and natural vitamin E (mixed tocopherol concentrate, from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Linoleic 48–74%
Palmitic 4–9%
Oleic 14–40%
Stearic 1–7%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner.

Stir into soups, stews, and sauces; or use for light sautéing.

Its subtle nutty flavour is also excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

**Inositol:
Myo-Inositol**

powder

PCOS Management · Enhances Fertility by Improving Ovarian Function · Healthy Glucose Metabolism / Mood Balance

Helps to improve ovarian function in women with oligomenorrhea and polycystic ovaries; in the management of polycystic ovarian syndrome (PCOS) by helping to restore normal ovarian function; in the management of PCOS by reducing oxidative stresses; to restore ovulation and oocyte quality, and to normalize menstrual cycle irregularities; to reduce serum testosterone in women with PCOS; and in the management of PCOS's hormonal and metabolic conditions by promoting healthy glucose metabolism. As an important component of phospholipids, inositol can assist in regulating cellular response for healthy body functioning. Helps support healthy mood balance.

Each scoop contains

- Inositol (myo-inositol) 4 g
- 100% Vegan. Does not alter taste of drinks when mixed in.

Directions of use

Adults: Take 1 scoop added to 250 ml of water or juice, one to three times daily or as directed by your health-care practitioner. We recommend weighing **Myo-Inositol** for precise dosage.

Duration of use

Consult a health-care practitioner for use beyond 6 weeks.

Lupine Seed Protein

Organic · 100% Pure
Whole-Food Protein Powder

Unsweetened and Unflavoured
53% Protein · 16 g Proteins,
4 g Fibres, 2 g Omega-3/6/7/9,
110 Calories per Portion
Gluten-Free Non-GMO

Lupine seed protein powder is an excellent source of protein, is high in fibre, and is a source of potassium and iron. It's a good source of healthy protein for vegans, vegetarians, and those looking to limit their meat consumption.

Ingredient

Organic lupine seed.

Directions of use

Its neutral flavour and versatility of being soluble in both oil and water make it terrific for soups, smoothies, salad dressings, cooking, baking, and more.

“Opportunity is always knocking. The problem is that most people have the self-doubt station in their heads turned up way too loud to hear it.”

Brian Vaszily

MAGNESIUM SUPPLEMENTS

MAGNESIUM is the catalyst that sparks countless metabolic-, skeletal-, and nervous-system functions. The problem for many of us is that it's critically deficient in our food chain.

Furthermore, dietary habits that include consumption of saturated fats, sugar, and caffeine place our magnesium levels at risk. Magnesium regulates heartbeat, skeletal health, bowel regularity, and blood pressure; it clots blood, activates B vitamins, helps with stress management, and impacts blood glucose levels. It also aids in the metabolism of complex carbohydrates, proteins, and fats.

MAGNESIUM is essential for nerve and muscle function. It relaxes muscles, therefore low levels of this precious mineral can lead to muscle spasms, frequent cramps, and restless leg syndrome. Nerve cells rely upon the presence of adequate levels of magnesium to conduct impulses across the minute gaps between them called synapses.

MAGNESIUM deficiency is among the most common mineral deficiency in the population, affecting more than 30% of Canadians according to Health Canada. Identifying a magnesium deficiency, then choosing the right form and dosage, could represent a simple therapeutic intervention that dramatically impacts your life.

MAGNESIUM BISGLYCINATE is recognized as the most bioavailable form of this critical mineral. Nutrients compete within the intestines for carrier proteins to transport them through the intestinal wall into the bloodstream. In its chelated form, being attached to amino acids, magnesium bisglycinate skips this process for direct

intestinal absorption and delivery within the bloodstream. This makes it gentle on the intestines as other forms of magnesium, when left unabsorbed, can cause nausea and diarrhea. Glycine—magnesium bisglycinate being formed of one molecule of magnesium and two molecules of glycine—is also a calming amino acid which amplifies the benefits of this superior form of magnesium.

It's All in the Delivery...

Once within the bloodstream, magnesium bisglycinate is easily recognized for active transport within cells to carry out its hundreds of essential metabolic duties.

Cal-Mag Citrate capsules With Zinc, Potassium, Selenium

Immunity

A factor in the maintenance of good health. Helps to maintain healthy skin. Helps the body to metabolize nutrients. Helps in the development and maintenance of bones and teeth. Helps support the immune system.

Each vegetable capsule contains

Magnesium	
(from magnesium citrate)	78 mg
Magnesium (from magnesium oxide)	26 mg
Calcium (from calcium citrate)	52 mg
Potassium (from potassium citrate)	4.15 mg

Heart Mag capsules 770 mg Magnesium Orotate

Supports Healthy Cardiac Function Gentle on the Stomach

Research supports the ability of true magnesium orotate to support cardiac function under stress. Promotes maintenance of healthy muscle function, including that of the heart muscle. Helps maintain the body's ability to metabolize nutrients, maintain a normal electrolyte balance, with tissue formation, and the development and maintenance of bones and teeth. Magnesium and orotic acid exert complementary effects on the biosynthesis of pyrimidine nucleotides, and maintain normal glycogen stores, protein synthesis, ATP levels, and contractile function.

Each vegetable capsule contains

Fully reacted magnesium orotate	770 mg
---	--------

Providing:

Elemental magnesium.	50 mg
Orotic acid	650 mg

Other ingredients

Microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule four times daily or as directed by your health-care practitioner.

Organic

Marula Seed Oil

Deeply Hydrating Facial Oil

Our **organic** marula seed oil is cold-pressed from kernels of fruits that are hand-harvested from the majestic marula trees of South Africa. It has a light texture to deeply penetrate skin for a smooth-looking, radiant complexion.

Each bottle contains

Organic marula (*Sclerocarya birrea*) seed oil, cold-pressed. 30 ml with added **organic** rosemary (*Rosmarinus officinalis*) extract.

Ingredients

Sclerocarya birrea (marula) seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face and neck. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath.

Matcha

powder

First Harvest · Organic Green Tea Pesticide-Free

Matcha green tea, unlike regular dried green tea, is made using the whole tea leaf, stone-ground to a fine powder. It contains at least three times as much EGCG (antioxidant) and more amino acids. It will give you more energy and boost your metabolism. Our matcha comes from the first harvest of shade-grown tea leaves.

Ingredient

Pure **organic** premium matcha green tea (*Camellia sinensis*).

Preparation

Mix ½–1 teaspoon in a cup of hot water. Adjust to taste. Can also be used in lattes, baking, and smoothies.

“No thief, however skillful, can rob one of knowledge, and that is why knowledge is the best and safest treasure to acquire.”

L. Frank Baum

MEDICINAL MUSHROOMS

Medicinal Mushrooms

Mushrooms have been revered by cultures around the globe for centuries for their medicinal properties. Recent studies have validated their incredible health benefits, and their popularity has grown further. Whole mushrooms, powders, and extracts will provide varying levels of therapeutic benefits.

Accessing Therapeutic Benefits

Science has shown that mushrooms' therapeutic benefits come from compounds called polysaccharides, the most studied of which are *beta*-glucans. However, they are encased within the mushrooms' rigid cell walls, known as chitin—the same unabsorbable substance lobster shells are made of. Chitin can be melted down by immersing mushrooms in hot water, at precise temperatures, over extended periods of time. The remaining rich liquid extract can then be dehydrated to deliver concentrated polysaccharides and *beta*-glucans in a form our bodies can absorb. This process is known as hot-water extraction. Recognizing this can go a long way in guiding consumers to get the most out of their mushroom selection.

Whole Mushrooms

Certified organic Reishi Slices and wildcrafted Chaga Tea are ideal for consumers who prefer the versatility to steep their own medicinal tea or brew artisanal liquid extracts. To release medicinal compounds, these mushrooms must be

simmered in hot water for considerable lengths of time: Hours for teas, and even days for tinctures. Those committed to traditional brewing will appreciate starting with the highest-quality mushrooms, guaranteed safe from impurities.

Certified Organic Medicinal Mushroom Powders

Our organic mushroom powders may be enjoyed in hot water; mixed in with your favourite hot beverages; or added to soups, stews, or sauces. Whichever you choose, mushroom powders must be infused in a hot liquid to release their therapeutic compounds: Recommended times vary from 5 to 20 minutes; simmering even longer will release higher amounts of active constituents.

Medicinal Mushroom Extracts

For those looking to maximize health benefits and access the full spectrum of therapeutic compounds, hot-water extracts are the smartest choice. Hot-water extracts are the only form of medicinal mushrooms allowing for validated measures of polysaccharides, and particularly *beta*-glucans. New Roots Herbal's medicinal mushroom extracts are hot-water-extracted and their polysaccharide content is potency-validated, with quantified amounts of *beta*-glucans. The best medicinal benefits, in a convenient capsule format.

The Rumour Mill

The term "micronization" is being used on some of the competition's mushroom powders, suggesting superior absorption and assimilation. In reality, micronization is simply a process by which a high-speed jet mill grinds mushrooms into a fine dust. This process *does not* melt away chitin and *does not* release therapeutic constituents. The consumer may think they are getting a medicinal extract, *but they are not*.

MEDICINAL MUSHROOMS

Chaga Extract capsules

350 mg · Hot-Water Extract

Medicinal Mushrooms
Immune Support · Harmony
40% Polysaccharides

Source of fungal polysaccharides with immunomodulating properties.

Each vegetable capsule contains

Chaga mushroom (*Inonotus obliquus*) **extract** standardized to 40% polysaccharides 350 mg
Hot-water extraction.

Other ingredients

Vegetable magnesium stearate in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Chaga Tea chunks

Immunity · European Wild-Crafted

Our wild-crafted chaga is 100% sustainably sourced from living trees in Europe, not causing any damage to the host tree. Source of fungal polysaccharides with immunomodulating properties. Source of antioxidants.

Ingredient

Wild chaga (*Inonotus obliquus*) mushroom chunks.

Directions of use

Adults: Add 3 g of chaga chunks to 1 litre of water. Simmer for 10–20 minutes to make a tonic, or several hours to make a concentrate. Temperature range should be between 50 and 70 °C; never a rolling boil. Serve hot or let cool to room temperature, then refrigerate up to 14 days. Store used chaga chunks in freezer, and reuse 3–5 times or until water runs clear. After several brews, you may wish to break chaga chunks into smaller pieces to enable hot water to penetrate further and extract more beneficial compounds. **Chunk size varies from bag to bag, so feel free to experiment to find your optimum desired strength.**

Moringa Seed Oil

Organic

Body, Face, and Hair

Organic and cold-pressed, our South African-sourced moringa seed oil is among the most versatile topical oils. It works wonders for hair, skin, and for a smooth-looking complexion.

Each bottle contains

Organic moringa (*Moringa oleifera*) seed oil, cold-pressed. 30 ml with added **organic rosemary** (*Rosmarinus officinalis*) extract.

Ingredients

Moringa oleifera seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face, neck, body, hair, or nails. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath.

Multi-Max

Multivitamin

capsules

Advanced 45-Ingredient Formula
IRON-FREE

Source of vitamins, minerals, and antioxidants for the maintenance of good health. Helps to maintain healthy skin and immune function. Helps in the function of the thyroid gland. Helps in the development and maintenance of bones.

Two vegetable capsules contain

Vitamins

Vitamin C (from calcium ascorbate)	43.75 mg
Vitamin E (D-alpha-tocopheryl acid succinate)	33.44 mg AT

Vitamin B5 (calcium D-pantothenate).....	11.5 mg
Vitamin B1 (thiamine hydrochloride).....	8.25 mg
Vitamin B3 (niacinamide)	7.5 mg
Vitamin B2 (riboflavin).....	5 mg
Vitamin B3 (inositol hexanicotinate, flush-free)	5 mg
Vitamin B6 (pyridoxine hydrochloride).....	5 mg
Vitamin B2 (riboflavin-5'-phosphate sodium).....	1.25 mg
Vitamin B6 (pyridoxal-5'-phosphate)	1.25 mg
Folate (from calcium L-5-methyltetrahydrofolate)....	95 mcg
Vitamin B12 (methylcobalamin).....	75 mcg
Biotin	16.5 mcg
Vitamin D3 (cholecalciferol) (1.425 mcg)	57 IU

Minerals

Magnesium (from magnesium citrate)	112.5 mg
Calcium (from calcium citrate and calcium ascorbate).	81 mg
Potassium (from potassium citrate).....	8.25 mg
Zinc (from zinc citrate).....	3.75 mg
Manganese (from manganese citrate)	1 mg
Copper (from copper gluconate).....	250 mcg
Boron (from boron citrate).....	125 mcg
Iodine (from Norwegian kelp [<i>Ascophyllum nodosum</i>].....	25 mcg
Chromium (from chromium HVP chelate).....	12.5 mcg
Selenium (from selenium HVP chelate).....	12.5 mcg

Amino Acids

L-Proline.....	22.5 mg
N,N-Dimethylglycine (DMG).....	20 mg
L-Cysteine hydrochloride monohydrate.....	7.5 mg

Supplements / Nutraceuticals

Green tea (<i>Camellia sinensis</i>) extract, 50% polyphenols	60 mg
Citrus bioflavonoids (from bitter orange [<i>Citrus × aurantium</i>]), 50% hesperidin	50 mg
Bee pollen	35 mg
D-Ribose.....	30 mg
DL-alpha-Lipoic acid.....	25 mg
Broken-cell, organic chlorella (<i>Chlorella vulgaris</i>)	18 mg
Organic spirulina (<i>Spirulina platensis</i>)	18 mg
Betaine hydrochloride	12.5 mg
Lecithin (from non-GMO sunflower oil).....	8.25 mg
para-Aminobenzoic acid (PABA).....	6.25 mg
Coenzyme Q10 (ubiquinone-10) (from fermentation)....	6 mg
Rutin	5 mg
Choline citrate	4.15 mg
Inositol (myo-inositol).....	4.075 mg
Hesperidin (from bitter orange [<i>Citrus × aurantium</i>] fruit)	2.5 mg
Quercetin.....	2.5 mg
Tomato (<i>Solanum lycopersicum</i>) flesh extract, 20% lycopene.....	750 mcg
Black pepper (<i>Piper nigrum</i>) fruit extract, 95% piperine	200 mcg

Other ingredients

Microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of carbohydrate gum and purified water.

Directions of use

Adults: Take 2 capsules one to four times daily with meals or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

Multi 5 Collagen powder

Protein-Building Peptides
5 Types of Food-Sourced Collagen:
I, II, III, V, and X

Collagen, a kind of protein naturally produced by the body, is crucial for skin's strength and elasticity, muscle strength, bone strength, and more. Keto- and paleo-friendly, this potent blend of 5 types of collagen is sourced from cattle, fish, and poultry. Free of GMOs, easily digestible, and gut-friendly.

Ingredients

Hydrolyzed bovine collagen, beef bone broth collagen, chicken collagen, eggshell membrane collagen, and hydrolyzed fish collagen. Contains: Eggs, fish (cod [*Gadus morhua*], saithe [*Pollachius virens*], haddock [*Melanogrammus aeglefinus*], and plaice [*Pleuronectes platessa*]).

Directions of use

Add 2 tablespoons to smoothies and blended drinks or shaker cups. Use in your favourite recipes when baking as well!

Multivitamins for Every Need

Children's Multi powder Advanced 18-Ingredient Formula

Natural Berry-Lemon Flavour
Health + Immunity
SUGAR-FREE

A multivitamin and mineral supplement for the maintenance of good health. Helps the body metabolize nutrients. Calcium, magnesium, and vitamin C help in the development and maintenance of bones and teeth. Thiamine helps normal growth. Niacinamide helps normal growth and development. Zinc helps maintain healthy skin, and helps maintain immune function.

Each dose of 6.356 g (approx. 1 scoop) contains

Vitamin C (ascorbic acid)	250 mg
Calcium (from calcium citrate)	100 mg
Magnesium (from magnesium bisglycinate)	50 mg
Choline (from choline citrate)	40 mg
Vitamin B1 (thiamine hydrochloride)	10 mg
Vitamin B2 (riboflavin-5'-phosphate sodium)	10 mg
Vitamin B3 (niacinamide)	10 mg
Vitamin B5 (calcium D-pantothenate)	10 mg
Vitamin B6 (pyridoxal-5'-phosphate)	10 mg
Iron (from iron bisglycinate)	2 mg
Zinc (from zinc citrate)	2 mg
Vitamin B12 (methylcobalamin)	500 mcg
Folate (from calcium L-5-methyltetrahydrofolate)	400 mcg
Biotin	300 mcg
Copper (from copper citrate)	200 mcg
Iodine (from Norwegian kelp [<i>Ascophyllum nodosum</i>])	70 mcg
Vitamin D3 (cholecalciferol)	400 IU (10 mcg)

Other ingredients

Silicon dioxide, mixed tocopherols (from non-GMO sunflower), natural berry flavour, natural lemon flavour, L-malic acid, stevia (*Stevia rebaudiana*) leaf extract, and microcrystalline cellulose.

Directions of use

Children ≥ 4 years old: Mix ½ scoop once or twice daily in 6 oz. of unsweetened fruit juice. Stir well until dissolved. If you are taking other medications, take this product a few hours before or after them.

WHY IRON-FREE?

Iron is recommended for those with iron deficiencies or during pregnancy.
Iron overload causes oxidation which can contribute to chronic disease.

Olive Oil: Heart Smart Extra Virgin Organic Olive Oil

First Cold-Pressed · Non-GMO

Plant sterol-fortified to promote healthy cholesterol levels. Helps lower total blood and LDL cholesterol. Helps maintain healthy cholesterol levels.

Each tablespoon contains

Plant sterols esters 375 mg
(combined beta-sitosterols, campesterols, and stigmasterols).

Other ingredients

Certified organic extra virgin olive (*Olea europaea*) oil and natural vitamin E (mixed tocopherol concentrate, from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Oleic	56–85%
Linoleic	3.5–20%
Palmitic	7.5–20%
Stearic	0.5–5%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner. Stir into soups, stews, and sauces; or use for light sautéing. Its taste of sweet butter with subtle notes of pear, along with its low acidity level, makes it excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

✓ Immune Health

Oregano exists in a variety of species, each containing an array of volatile oils. GC-MS validates every batch, ensuring only *Origanum minutiflorum*, the revered species of oregano, is present. It then quantifies the precise therapeutic amount of carvacrol present, ensuring our entire family of Wild Oregano C93 products meets the therapeutic content consumers expect.

Pancreas: Grass-Fed Lamb Pancreas

Pure Glandular · 450 mg

tablets

Hormone- and Pesticide-Free
Supports Good Health

Each tablet contains

Pancreas (organ)
(from lamb [*Ovis aries*])* 450 mg
Vitamin C (ascorbic acid) 6 mg

*Superior-quality, freeze-dried organ from New Zealand grass-fed lamb. Guaranteed free of pesticides, growth hormones, antibiotics, and transmissible spongiform encephalopathy (TSE).

Other ingredients

Pancreatin

capsules

Equivalent to 1,300 mg Activity
Digestive Aid · Reduces Bloating
Natural Water-Based GPS™
Enteric Coating
Gastric Protective System

Each 325 mg dose of 4× concentrated Pancreatin provides the equivalent activity of 1,300 mg of unconcentrated pancreatic enzymes. Digestive aid. Helps to decrease bloating after high-calorie, high-fat meals. Pancreatin capsules are enteric-coated. This is important because the capsules are protected from stomach acid. Pancreatin capsules must be delivered intact to the small intestine in order to work. Capsules that are not enteric-coated will be destroyed in the stomach by stomach acid.

Each enteric-coated vegetable capsule contains

Pancreatic enzymes
(from pork [*Sus scrofa*]) 4× concentrate 325 mg

Providing:

Amylase activity 32,500 USP units
Protease activity 32,500 USP units
Lipase activity 2,600 USP units

Other ingredients

A non-GMO vegetable capsule composed of vegetable carbohydrate gum, purified water, and a water-based enteric coating.

Directions of use

Adults: Take 1 capsule two to four times daily with food or as directed by your health-care practitioner. Take with or immediately before a meal/food. Swallow whole; do not crush or chew. Use the smallest effective dose which controls symptoms.

Duration of use

Consult a health-care practitioner for use beyond 4 weeks or for prolonged use.

Pectin: Modified Citrus Pectin

powder

Helps to Support Detoxification

Each scoop contains

Modified citrus pectin, from lemon
(*Citrus × limon*) fruit peel. 5 g
(Providing on average 400 mg sodium)

Directions of use

Adults ≥ 18 years old: Take 1 scoop
three times daily 30 minutes before food or as directed by your
health-care practitioner. Put one 5 g scoop of **Modified Citrus
Pectin** into a glass. Add liquid (water, juice, or tea). Do not stir
yet: Let sit 3–5 minutes to allow the powder to rehydrate. Stir
contents until powder is dissolved. We recommend weighing
Modified Citrus Pectin for precise dosage.

Caution

Provides a significant amount of sodium.

Plantago: Fibre Ultra Rich

Plantago + Inulin

powder

Promotes Regularity and Cleansing

Psyllium is used in herbal medicine as a bulk-forming laxative and to promote bowel movements by increasing bulk volume and water content. Psyllium provides gentle relief of constipation and irregularity.

Each teaspoon contains

Psyllium (*Plantago ovata*) husk 2,128 mg

Roselle (*Hibiscus sabdariffa*) 126 mg

Inulin (from chicory root [*Cichorium intybus*]) 100 mg

Clove (*Syzygium aromaticum*) flower bud 53 mg

Licorice (*Glycyrrhiza glabra*) root 53 mg

Other ingredient

Stevia (*Stevia rebaudiana*) leaf.

Directions of use

Adults ≥ 19 years old: Take 1 teaspoon twice daily. For each gram of psyllium, take with 30 ml of liquid (water, milk, fruit juice, or similar aqueous beverage). Drink immediately and maintain adequate fluid intake. Effects observed 12–24 hours after the first dose; results may take 2–3 days. If you are taking other medications, take this product 2 hours before or after them.

Duration of use

Avoid long-term use, and consult a health-care practitioner for use beyond 6 weeks.

Note: Also take 1–2 capsules of enteric-coated *Acidophilus Ultra* each day. Start progressively or as directed by your health-care practitioner. Our *Acidophilus Ultra* capsule is protected by an enteric coating. The capsule must survive stomach acid and be delivered to the small intestine in order to work. The beneficial activity of *acidophilus* capsules without an enteric coating is destroyed in the stomach by stomach acid.

Pomegranate Seed Oil

(*Punica granatum*)

100% Pure · Certified Organic

Soothes and Repairs Very Dry Skin

A rare natural source of omega-5 and antioxidants for glowing skin, this unique oil helps reduce the look of wrinkles and of aging. It soothes and relieves very dry and damaged skin. Its strong character is ideal for night care.

Each bottle contains

Organic pomegranate (*Punica granatum*) seed oil, cold-pressed with added organic rosemary (*Rosmarinus officinalis*) extract 50 ml

Ingredients

Punica granatum (pomegranate) seed oil and *Rosmarinus officinalis* (rosemary) leaf extract.

Directions of use

Place 5–8 drops in your hand and gently massage the oil on your face and neck. Larger body parts may require more oil. Best applied on moist skin, such as following a shower or bath.

Potassium Iodide

65 mg

tablets

**For Nuclear Emergency Use Only
Not for Daily Use**

Thyroid blocking agent for use in nuclear emergencies which involve the release of radioiodine.

Each tablet contains

Potassium iodide. 65 mg

Other ingredients

Dicalcium phosphate, microcrystalline cellulose, vegetable stearic acid, croscarmellose sodium, vegetable magnesium stearate, and silicon dioxide.

Directions of use

Take as directed by a public official if a nuclear emergency should happen. Take just before or shortly after exposure to radioiodine.

For children under 6 years old, crush or dissolve tablets into food or drink prior to consumption; do not allow child to swallow tablet whole.

2 months–3 years: Take half a tablet daily;

4–18 years old: Take 1 tablet daily;

18 years+: Take 2 tablets daily; or as directed by your health-care practitioner.

Take daily until threat is over as directed by public officials.

Complete Multivitamin

capsules

Helps Reduce Risk of Neural Tube Defects

Vitamin supplement and antioxidant for maintenance of good health. Helps to reduce the risk of neural tube defects when taken daily at least three months prior to becoming pregnant and during early pregnancy. Helps in the development and maintenance of bones, cartilage, teeth and gums. Helps to form red blood cells and helps in their proper function.

Each vegetable capsule contains

Calcium (from calcium citrate)	66.67 mg
Vitamin C (from calcium ascorbate)	58.33 mg
Magnesium (from fully reacted magnesium bisglycinate)	33.33 mg
Vitamin B5 (calcium D-pantothenate)	33.33 mg
Vitamin B1 (thiamine hydrochloride)	25 mg
Potassium (from potassium citrate)	23.33 mg
Vitamin B3 (niacinamide)	16.67 mg
Iron (from iron bisglycinate)	11.67 mg
Vitamin B2 (riboflavin-5'-phosphate sodium)	11.67 mg
Vitamin B6 (pyridoxal-5'-phosphate)	11.67 mg
Vitamin E (D-alpha-tocopheryl acid succinate)	11.17 mg AT (16.7 IU)
Zinc (from zinc citrate)	8.33 mg
Manganese (from manganese citrate)	1.67 mg
Copper (from copper citrate)	500 mcg
Folate (from calcium L-5-methyltetrahydrofolate)	333.33 mcg
Vitamin B12 (methylcobalamin)	333.33 mcg
Biotin	100 mcg
Iodine (from potassium iodide)	50 mcg
Chromium (from chromium polynicotinate)	33.33 mcg
Vitamin K1	33.33 mcg
Molybdenum (from molybdenum citrate)	16.667 mcg
Selenium (from yeast-free L-selenomethionine)	16.667 mcg
Vitamin D3 (cholecalciferol)	3.33 mcg (133.33 IU)

Other ingredients

Microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 3 capsules daily with food or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

Prevent

capsules

1 Capsule = 44 Cups of Green Tea

Source of antioxidants. Cayenne is traditionally used in herbal medicine to help support peripheral circulation.

Each vegetable capsule contains

Green tea (<i>Camellia sinensis</i>) leaf extract (450 mg catechins including 375 mg epigallocatechine-3-gallate [EGCG])	500 mg
Turmeric (<i>Curcuma longa</i>) root extract, 95% curcuminoids, providing curcumin I, demethoxycurcumin, and bisdemethoxycurcumin	100 mg
N-Acetyl-L-cysteine	60 mg
Japanese knotweed (<i>Fallopia japonica</i>) root extract, 50% resveratrol	50 mg
Tomato (<i>Solanum lycopersicum</i>) flesh extract, 10% lycopene	30 mg
Cayenne (<i>Capsicum annuum</i>) fruit	25 mg
Astaxanthin 1.5%, from 20 mg <i>Haematococcus pluvialis</i>	20 mg
Zeaxanthin (from marigold [<i>Tagetes erecta</i>] extract)	5 mg
Black pepper (<i>Piper nigrum</i>) fruit extract, 95% piperine	2 mg

Other ingredients

Vegetable magnesium stearate in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule daily with food or as directed by your health-care practitioner. Take with a meal containing oil/fat.

Duration of use

Consult a health-care practitioner for use beyond 6 weeks.

Prolax

Stimulant Laxative

capsules

For Occasional Constipation

A stimulant laxative to promote bowel movement and short-term relief of occasional constipation. Promotes bowel movement.

Each vegetable capsule contains

Cascara sagrada (*Frangula purshiana*) aged bark 180 mg
 Butternut (*Juglans cinerea*) bark 160 mg
 Chinese rhubarb (*Rheum officinale*) root 110 mg
 Whole Irish moss (*Chondrus crispus*) 20 mg
 Cayenne (*Capsicum annuum*) fruit 20 mg
 Ginger (*Zingiber officinale*) rhizome 20 mg

Other ingredients

Vegetable magnesium stearate in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 2–6 capsules in a single dose the same day, two to three times per week. Allow at least 6 to 12 hours for laxative effect to occur. If results are not observed, the frequency of use may be increased up to once daily. The correct individual dose is the smallest required to produce a soft-formed stool. If you are taking other medications or natural health products, take this product a few hours before or after them.

Duration of use

Consult a health-care practitioner for use beyond 7 days.

Prostate Perform

softgels

Relieves Urologic Symptoms of BPH · Reduces Difficulty and Frequency of Urination
DAYTIME AND NIGHTTIME

Used in herbal medicine to help relieve the urologic symptoms (e.g., weak urine flow, incomplete voiding, frequent daytime and nighttime urination) associated with mild to moderate benign prostatic hyperplasia (BPH); to help reduce difficulty in urination associated with the early stages of BPH.

Two softgels contain

Wild-crafted saw palmetto (*Serenoa repens*) fruit liposterolic extract, 95% fatty acids (supercritical CO₂-extracted) 320 mg
 Rye (*Secale cereale*) flower pollen extract 210 mg
 Free plant sterols (from non-GMO soy) 370 mg
 (148 mg beta-sitosterol, 74 mg stigmasterol, 74 mg campesterol)
 Stinging nettle (*Urtica dioica*) root and herb top extract, 5% silicic acid 50 mg
 Certified organic borage seed oil (*Borago officinalis*) 200 mg
 L-Alanine 100 mg
 Cranberry (*Vaccinium macrocarpon*) fruit 107× concentrate 100 mg
 L-Glutamic acid hydrochloride 100 mg
 L-Glycine 100 mg
 Natural vitamin E (mixed tocopherol concentrate, from non-GMO soy) 76 mg
 Zinc (from zinc citrate) 32 mg
 Pau d'arco (*Tabebuia heptaphylla*) inner bark 30 mg
 Vitamin B6 (pyridoxine hydrochloride) 20 mg
 Lycopene (from tomato [*Solanum lycopersicum*] flesh) 1.2 mg
 Selenium (from yeast-free L-selenomethionine) 100 mcg
 Vitamin D3 (cholecalciferol) 25 mcg (1,000 IU)

Other ingredients

Extra virgin certified organic olive oil (350 mg); certified organic pumpkin (*Cucurbita pepo*) seed oil, cold-pressed (200 mg); lecithin (from non-GMO sunflower); medium-chain triglycerides (MCT); silicon dioxide; and beeswax in a softgel composed of annatto (in sunflower oil), bovine gelatin, glycerin, and purified water.

Directions of use

Adult men: Take 2 softgels daily with food or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

Duration of use

Consult a health-care practitioner for use beyond 4 months.

Note: Improvements should be noticeable after 7–10 days.

GPS ENTERIC COATING PROTECTS PROBIOTICS FROM STOMACH ACID

Consider It an Investment in the Health of Your Consumers!

GPS™ enteric-coated probiotics (Gastric Protection System) deliver guaranteed targeted intestinal release.

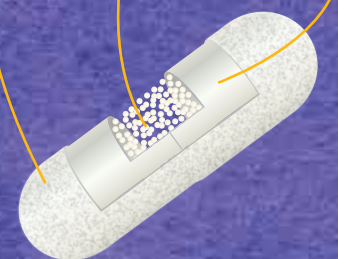

Only GPS™ enteric coating keeps harsh stomach acid from seeping into the capsule and protects it from disintegrating in your stomach. GPS™ enteric coating safeguards the delicate probiotics until they reach the safety of your intestines! Once there, it opens to release live, healthy probiotics.

What's So Special About GPS™ Enteric Coating?

Enteric coating is a dual process featuring a water-based, naturally sourced coating made of fatty acids and plant fibres. This coating is applied with advanced spray-drying technology. Probiotic capsules are repeatedly sprinkled with hundreds of thousands of natural microscopic particles that only dissolve at your intestinal pH.

These particles bind to the capsule, layer upon layer, to form the protective enteric coating. The process is not only time-consuming, but also very costly; but we believe it's worth it!

GPS™ Enteric Coating
Vegetable Capsule
Live Active Probiotics

Only GPS™ enteric coating has been scientifically proven to protect probiotics from harsh stomach acid.

ARE YOUR CUSTOMERS GETTING FULL PROBIOTIC BENEFITS?

Probiotics have many benefits. To maximize their effectiveness, live intestinal delivery cannot be compromised. Ensure your staff has the proven facts to help your customers make informed decisions.

PROBIOTIC FACTS

ENTERIC COATING VERSUS DELAYED-RELEASE OR ACID-RESISTANT CAPSULES

Probiotics work wonders—but only if they make it past your stomach acid alive and reach the intestines where they actually do their job.

Made from natural sources, our enteric-coated capsules offer unrivalled protection for your probiotics. Studies have shown these capsules deliver 100% of live probiotics past stomach acid to the small intestine where they are released in conditions favourable for their growth.

“Delayed-Release” or “Acid-Resistant” capsules have been shown to be ineffective in protecting probiotics from stomach acid. Tests have found that these capsules often open or leak in stomach acid in less than 30 minutes, resulting in the destruction of 80% to 99% of the live probiotics.

Only enteric-coated probiotic capsules ensure that 100% of the live probiotic contained within will survive destructive gastric acidic conditions. Given the data, the only logical choice is an enteric-coated probiotic.

REFRIGERATED VERSUS SHELF-STABLE

Some probiotic strains may be hardier than others, but they can all benefit from being refrigerated.

This is especially true of the valuable but delicate families of *Lactobacilli* and *Bifidobacteria*, which will die in 6 to 30 days of exposure at room temperature. This makes shelf-stable products unable to reliably deliver the necessary spectrum of probiotics within a formula.

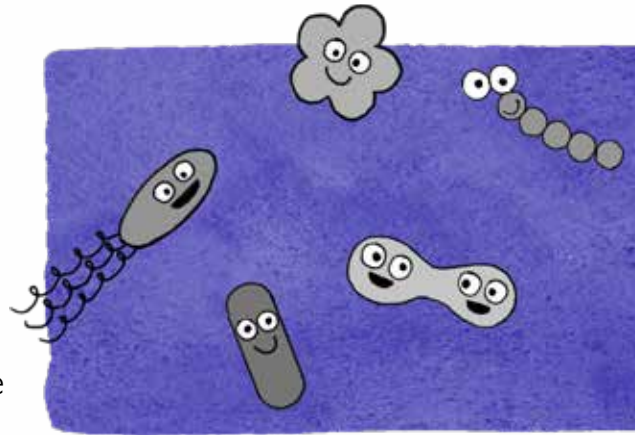

Refrigeration during manufacturing, shipping, and storage is the only way to preserve viability of a complete spectrum of probiotics.

CFU COUNT AND STRAINS

Colony-forming units (CFU) are the number of viable bacteria in a capsule. To benefit our health, we need billions! And the wider the variety of strains, the broader the benefits to our health. But the value of CFUs and multiple strains is their ability to populate in our intestines. Only live cells can do so!

While it's easy to claim a large live count and multistrain formulas at manufacturing, getting all these cells to where they need to be, alive and ready to work, is a whole different story. Probiotics naturally die off and, if they are not properly protected, they are unable to provide full health benefits.

With our proven enteric-coated capsules and our insistence on refrigeration, the live count we promise is exactly what you can count on being delivered to your intestines. Every time.

SHOW ME THE STUDIES!

Looking for the truth, the whole truth, and nothing but the truth on probiotics? Don't just take our word on it! We've gathered a collection of studies that can help you see the big picture on probiotics and—more importantly—enjoy all their healthy benefits.

We have compiled an extensive list of scientific publications on Enteric Coating, Refrigeration, and Multistrain Formulations that confirm the scientific truth.

ENTERIC COATING

“[E]nteric-coated probiotic capsules ensure that microorganisms better survive destructive gastric acidic conditions.”

- › Kuate, S., et al. “In-vitro comparative study of the survival of probiotic capsules in simulated gastric environment.” *NHP Research Notes*, No. 1 (2017): 1–8.

“Only [probiotic capsules] that were enteric coated were able to resist to the degradation caused by stomach conditions. [...] the uncoated bacteria were almost completely destroyed.”

- › Millette, M., et al. “Gastrointestinal survival of bacteria in commercial probiotic products.” *International Journal of Probiotics & Prebiotics*, Vol. 8, No. 4 (2013): 149–156.

“The survivability of the probiotic bacteria however was ultimately shown to be substantially more in these formulations [with enteric coating] when compared to the unmodified probiotic bacteria.”

- › Mershen, G., et al. “A review of the advancements in probiotic delivery: Conventional vs. non-conventional formulations for intestinal flora supplementation.” *AAPS PharmSciTech*, Vol. 15, No. 1 (2014): 29–43.

“[Enteric-coated capsules] did not disintegrate after 60 min of exposure in the [simulated gastric fluid].”

“Non-enteric-coated [probiotic capsules] disintegrate rapidly in a simulated gastric fluid.”

“This study suggests that oral delivery systems intended for intestine colonization such as probiotics should be enteric-coated to ensure maximum benefits for customers.”

- › Kuate, S., et al. “Viability of probiotics in non-enteric-coated vegetarian capsules.” *NHP Research Notes*, No. 2 (2018): 1–7.

“[Y]ogurt alone is not a good protector of probiotic bacteria in artificial gastric conditions [...]. [Protecting] probiotics during gastric passage positively influences their health-promoting effects.”

- › Ortakci, F., and S. Sert. “Stability of free and encapsulated *Lactobacillus acidophilus* ATCC 4356 in yogurt and in an artificial human gastric digestion system.” *Journal of Dairy Science*, Vol. 95, No. 12 (2012): 6918–6925.

“Most probiotics oral forms did not provide any protection to strains, unless these forms presented strong enteric protection.”

- › Caillard, R., and N. Lapointe. “In vitro gastric survival of commercially available probiotic strains and oral dosage forms.” *International Journal of Pharmaceutics*, Vol. 519, No. 1–2 (2017): 125–127.

“[E]nteric coated spheres effectively protected dried probiotic LBC from acid for 2 hours [...].”

- › de Barros, J.M.S., et al. “Enteric-coated spheres produced by extrusion/spheronization provide effective gastric protection and efficient release of live therapeutic bacteria.” *International Journal of Pharmaceutics*, Vol. 493, No. 1–2 (2015): 483–494.

“The microencapsulation provided protection to *B. longum* BL-05 and encapsulated cells were exhibited significant ($p < 0.05$) resistance to [simulated gastric juice] and [simulated intestinal fluid] as compared to free cells.”

- › Yasmin, I., et al. “Development of whey protein concentrate-pectin-alginate based delivery system to improve survival of *B. longum* BL-05 in simulated gastrointestinal conditions.” *Probiotics and Antimicrobial Proteins*, Vol. 11, No. 2 (2019): 413–426.

REFRIGERATION

“The survival of *B. infantis* decreased substantially during storage at [only] 12 °C, when no [alive and healthy] cells were found at day 31.”

- › Canganella, F., et al. “Survival of *Lactobacillus acidophilus* and *Bifidobacterium infantis* in yogurts manufactured from cowmilk and soymilk during storage at two temperatures.” *Annals of Microbiology*, Vol. 50 (2000): 43–53.

“Viability [of Bifidobacteria] was inversely related to storage temperature and at 15 degrees C and 25 degrees C, a significant decline was observed for all [Bifidobacterium] species.”

- › Simpson, P.J., et al. “Intrinsic tolerance of Bifidobacterium species to heat and oxygen and survival following spray drying and storage.” *Journal of Applied Microbiology*, Vol. 99, No. 3 (2005): 493–501.

“[S]torage temperature [refrigeration] was the most important factor which determines microorganisms survival.”

- › Abd El Gawad, I.A., et al. “Spray drying of lactic acid cultures. II: The effect of culture conditions and storage on microorganisms survival.” *Egyptian Journal of Dairy Science*, Vol. 17 (1989): 273–281.

“[I]nsufficient viability and survival of [probiotic] bacteria remain a problem in commercial food products.”

- › Kailasapathy, K., and J. Chin. “Survival and therapeutic potential of probiotic organisms with reference to *Lactobacillus acidophilus* and *Bifidobacterium* spp.” *Immunology and Cell Biology*, 78(1) (2000), 80–8.

“The survival of probiotics was strongly dependent on the storage temperature and remarkable viability loss occurred at room temperature compared to refrigerated storage. [...] *B. lactis* Bb-12 showed the less resistance to be stored at 20°C (24 h) [...]”

Disintegration testing is a US Pharmacopoeia's internationally accepted procedure. It is employed by scientists and researchers around the world to effectively mimic exposure to harsh stomach acid. This recognized method is used to measure the integrity and durability of our GPS™ enteric-coated capsules following exposure to destructive stomach acid. Further to this, we measure the survival of probiotics contained within. We guarantee the probiotics within our GPS™ enteric-coated capsules survive deadly stomach acid and arrive in the intestines alive. This same testing demonstrates that competitors' unprotected capsules leak and disintegrate, allowing stomach acid to destroy the probiotics within.

Psyllium:

Fibre Ultra Rich

Psyllium · 550 mg

capsules

Promotes Regularity and Cleansing

Psyllium is used in herbal medicine as a bulk-forming laxative and to promote bowel movements by increasing bulk volume and water content. Psyllium provides gentle relief of constipation and irregularity.

Each vegetable capsule contains

Psyllium (<i>Plantago ovata</i>) husk	405.36 mg
Roselle (<i>Hibiscus sabdariffa</i>) flower	80.98 mg
Inulin (from chicory root [<i>Cichorium intybus</i>])	42.92 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	10.12 mg
Licorice (<i>Glycyrrhiza glabra</i>) root	10.12 mg

Other ingredients

Stevia (*Stevia rebaudiana*) leaf extract and vegetable magnesium stearate in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults ≥ 19 years old: Take 3 capsules three times daily or as directed by your health-care practitioner. For each gram of psyllium, take with 30 ml of liquid (water, milk, fruit juice, or similar aqueous beverage). Drink immediately and maintain adequate fluid intake. If you are taking other medications, take this product 2 hours before or after them.

Duration of use

Effects observed 12–24 hours after the first dose; results may take 2–3 days. Avoid long-term use, and consult a health-care practitioner for use beyond 6 weeks.

Note: Also take 1 or 2 capsules of enteric-coated *Acidophilus Ultra* each day.

Psyllium:

Fibre Ultra Rich

powder

Psyllium + Inulin

Promotes Regularity and Cleansing

Psyllium is used in herbal medicine as a bulk-forming laxative and to promote bowel movements by increasing bulk volume and water content. Psyllium provides gentle relief of constipation and irregularity.

Each teaspoon contains

Psyllium (<i>Plantago ovata</i>) husk	1,945 mg
Roselle (<i>Hibiscus sabdariffa</i>) flower	414 mg
Licorice (<i>Glycyrrhiza glabra</i>) root	52 mg
Inulin (from chicory root [<i>Cichorium intybus</i>])	36 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	6 mg

Other ingredient

Stevia (*Stevia rebaudiana*) leaf.

Directions of use

Adults ≥ 19 years old: Take 1 teaspoon twice daily. For each gram of psyllium, take with 30 ml of liquid (water, milk, fruit juice, or similar aqueous beverage). Drink immediately and maintain adequate fluid intake. If you are taking other medications, take this product 2 hours before or after them.

Duration of use

Effects observed 12–24 hours after the first dose; results may take 2–3 days. Avoid long-term use, and consult a health-care practitioner for use beyond 6 weeks.

Note: Also take 1–2 capsules of enteric-coated *Acidophilus Ultra* each day. Our *Acidophilus Ultra* capsule is protected by an enteric coating. The capsule must survive stomach acid and be delivered to the small intestine in order to work. The beneficial activity of *acidophilus* capsules without an enteric coating is destroyed in the stomach by stomach acid.

Pumpkin Seed Protein

Organic · Whole-Food
Protein Powder

60% Protein · 100% Vegan
10 g Protein, 2 g Fibres,
1.7 g Omega-6/9, 60 Calories
per Portion · Lightly Roasted for
Great Taste

Pumpkin seed protein powder is a whole-food source of protein and healthy fibre.

Ingredients

Organic Styrian pumpkin seed and Styrian mountain salt.

Directions of use

Its distinct, subtle, nutty taste makes it a great fit to amplify the health quotient of soups, protein shakes, salad dressings, baked goods, and more. It's also a source of healthy protein for vegetarians and folks looking to reduce their meat consumption.

Purge Parasitis capsules

Antiparasitic

Wormwood is used in traditional herbal medicine to expel worms (vermifuge).

Each vegetable capsule contains

Black walnut (<i>Juglans nigra</i>) hull and leaf	157.8 mg
Whole wormwood (<i>Artemisia absinthium</i>)	94.68 mg
Odourless garlic (<i>Allium sativum</i>) bulb	63.12 mg
Oregano (<i>Origanum vulgare</i>) leaf extract, 30% carvacrol	40 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	31.56 mg
Oregon-grape (<i>Berberis aquifolium</i>) root	13.41 mg
Ginger (<i>Zingiber officinale</i>) rhizome	7.89 mg
Aloe (<i>Aloe vera</i>) leaf	5.52 mg
Quassia (<i>Picrasma excelsa</i>) stem wood	5.52 mg
Sage (<i>Salvia officinalis</i>) leaf	5.52 mg

Other ingredients

Grapefruit seed extract (37 mg)*, vegetable magnesium stearate, and microcrystalline cellulose in a non-GMO vegetable capsule composed of pullulan and purified water.

*Combination of natural extracts of grapefruit, lemon, and tangerine seeds.

Directions of use

Adults: Take 9 capsules daily with food or as directed by your health-care practitioner. Take for 15 days. Stop for 5 days. Repeat for 15 days. If you are taking supplements containing iron, zinc, calcium, or copper, take this product a few hours before or after them. To remove dead or dying parasites, take **Fibre Ultra Rich** (*Plantago* or *Psyllium*) from New Roots Herbal 1 or 2 times a day with 2 **Probiotics Urgency** GPS™ enteric-coated capsules.

Duration of use

For occasional use only. Consult a health-care practitioner for use beyond 14 days.

Purge Parasitis Program kit

Therapeutic Treatment for Elimination of Parasites

33-Day Program

Now Includes Fibre Ultra!

The Purge Parasitis Program includes a combination of proven antiparasitic ingredients used in herbal medicine to neutralize parasites as well as their eggs and toxins. This maximum-strength program delivers comprehensive results when all products are taken as indicated and the recommended program protocol is properly followed.

Each kit contains

2 bottles of Black Walnut Green Hull	60 capsules
1 bottles of Cloves	100 capsules
2 bottles of Purge Parasitis	90 capsules
1 bottles of Wormwood	100 capsules

Black Walnut Green Hull

Traditionally used in herbal medicine to help expel intestinal worms (vermifuge/anthelmintic) and eliminate ringworm (*Tinea corporis*).

Cloves

Used in traditional herbal medicine as a carminative for the relief of digestive complaints such as flatulence or abdominal distention.

Purge Parasitis

Wormwood is used in traditional herbal medicine to expel worms (vermifuge).

Wormwood

Used in traditional herbal medicine as a stimulant tonic to improve appetite and to relieve symptoms of dyspepsia (carminative). Used in traditional herbal medicine to expel worms (vermifuge).

Purifiant (Ultra): Ultra Purifiant Renew 500 mg capsules

3-Week Plan · Gentle Action

Psyllium is used in herbal medicine as a bulk-forming laxative, to promote bowel movements by increasing bulk volume and water content, and to provide gentle relief of constipation and/or irregularity.

Each vegetable capsule contains

Psyllium (<i>Plantago ovata</i>) husk	304.507 mg
Butternut (<i>Juglans cinerea</i>) bark	32.887 mg
Corn (<i>Zea mays</i>) silk stigma and style 4:1 extract	29.233 mg
Plantain (<i>Plantago major</i>) leaf	23.143 mg
Red clover (<i>Trifolium pratense</i>) flower	23.143 mg
Blessed thistle (<i>Cnicus benedictus</i>) herb top	18.27 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	18.27 mg
Yellow dock (<i>Rumex crispus</i>) root	18.27 mg
Black walnut (<i>Juglans nigra</i>) hull 4:1 extract	6.09 mg
Echinacea (<i>Echinacea angustifolia</i>) root	6.09 mg
Bentonite	5 mg
Odourless garlic (<i>Allium sativum</i>) bulb	3.045 mg

Other ingredients

Grapefruit seed extract* (28 mg), octanoic acid (calcium caprylate 3.045 mg and magnesium caprylate 3.045 mg), vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule made of vegetable carbohydrate gum and purified water.

*Combination of natural extracts of grapefruit, lemon, and tangerine seeds.

Directions of use

Adults: Take 5 capsules twice daily (morning and evening) with 8 oz. of water or juice before a meal or as directed by your health-care practitioner. If you are taking other medications, take this product at least 2 hours before or after them. Maintain adequate fluid intake. Effects observed between 12–24 hours after first dose, and may take 2–3 days.

Duration of use

For occasional use only. Consult a health-care practitioner for use beyond 14 days.

Important

Take 1 capsule of **Acidophilus Ultra** per day, at noon, apart from the doses of **Ultra Purifiant Renew**. Beneficial microorganisms (probiotics) such as those in **Acidophilus Ultra**, replace the pathogens that have been eliminated to strengthen the intestinal flora and prevent the return of dysbiosis. The GPS™ enteric-coated capsules of **Acidophilus Ultra** guarantee that 100% of the promised probiotic cells survive destructive

stomach conditions and arrive alive at the intestines to deliver their full benefits. Probiotic capsules without an enteric coating are destroyed in the stomach by gastric acid.

Mushroom Lovers

Reishi Powder

Organic *Ganoderma lucidum*
10 calories per portion

The magic of mushrooms is no mystery to us! Incorporating their wonder into your daily diet has never been easier. Take a moment to enjoy a delicately flavoured reishi tea or spruce up your favourite hot beverage. All-natural goodness with no bitter aftertaste.

Ingredient

Organic reishi (*Ganoderma lucidum*) powder.

Recommended use

Add ½ level teaspoon to your favourite hot drinks, coffee, baking, and cooking. Infusing/simmering 5 to 20 minutes will increase potency.

Residual solvents from extraction processes rank among the critical quality-control concerns for natural health products. The GC-Headspace is employed to guarantee the purity of all New Roots Herbal products.

Rhodiola capsules

Extract · 200 mg 5% Rosavins, 1.9% Salidroside

Reduces Mental Fatigue
Improves Stamina

Used in herbal medicine as an adaptogen to help temporarily relieve symptoms of stress (such as mental fatigue and sensation of weakness). Used in herbal medicine to help support cognitive function (such as mental focus and mental stamina). Provides antioxidants.

Each vegetable capsule contains

Roseroot (*Rhodiola rosea*) root extract,
5% rosavins, 1.9% salidroside 200 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide* in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

*May also contain microcrystalline cellulose.

Directions of use

Adults: Take 1 capsule twice daily or as directed by your health-care practitioner. Not to be taken immediately before bedtime.

SO STRONG!

Our rhodiola extract contains 5% rosavins. That's up to 66% stronger than competing products!

RiboEndurance Mag powder

Energy and Endurance
Athletic Support

Caffeine-free preworkout formula to enhance performance. Helps to maintain performance/promote endurance in extended (greater than 60 min), high-intensity exercise; to maintain normal electrolyte balance; and to maintain proper muscle function, including the heart muscle. Helps in energy metabolism and to maintain the body's ability to metabolize nutrients. Supports the development and maintenance of bones and teeth as well as tissue formation.

Continues on next page ↓

↓ Continued from previous page

Each ½ teaspoon (2,750 mg) contains

D-Ribose 2,500 mg
Magnesium (from magnesium citrate) 40 mg

Directions of use

Adults: To help maintain exercise performance: Take 1½–2 teaspoons daily or as directed by your health-care practitioner. Consume 45–90 minutes before exercising. For all other uses: Take ½ teaspoon daily or as directed by your health-care practitioner. • Mix product well in 1–2 cups (250–500 ml) of liquid (water, juice, etc.) immediately before consumption. We recommend weighing **RiboEndurance Mag** for precise dosage.

Safflower Oil:

Heart Smart

Organic Safflower Oil

First Cold-Pressed · Non-GMO

Plant sterol-fortified to promote healthy cholesterol levels. Helps lower total blood and LDL cholesterol. Helps maintain healthy cholesterol levels.

Each tablespoon contains

Plant sterols esters 375 mg
(combined beta-sitosterols, campesterols, and stigmasterols).

Other ingredients

Certified organic safflower oil, and natural vitamin E (mixed tocopherols from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Linoleic	68–83%
Palmitic	4–10%
Oleic	8–21%
Stearic	1–5%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner.

Stir into soups, stews, and sauces; or use for light sautéing. Its clean and crisp flavour is also excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

Skin Lovers Oil

Certified Organic

Deep Moisturizer

We have created the ultimate experience in skin care, where dramatic positive change is an absolute possibility.

Each bottle contains

Blend of organic: goji (*Lycium barbarum*) seed oil, rosehip (*Rosa rubiginosa* or *Rosa moschata*) seed oil, sea buckthorn (*Hippophae rhamnoides*) seed oil, argan (*Argania spinosa*) oil, cranberry (*Vaccinium macrocarpon*) seed oil, and tamanu (*Calophyllum inophyllum*) oil—all oils are cold-pressed or CO₂ supercritical extracts, and nondeodorized 15 ml with added natural vitamin E

Ingredients

Lycium barbarum seed oil, *Rosa rubiginosa* / *Rosa moschata* seed oil, *Hippophae rhamnoides* seed oil, *Argania spinosa* seed oil, *Vaccinium macrocarpon* seed oil, *Calophyllum inophyllum* seed oil, and tocopherols.

New Product! Since March 2023

Sleep⁸ Plus

With 5 mg Melatonin

capsules

Non-Habit-Forming
Sleeplessness, Jet Lag, Shift-work
Faster, Better, Longer Sleep

Helps increase total sleep time (aspect of sleep quality) in people suffering from sleep restriction or altered sleep schedule (e.g. shift-work / jet lag). Helps prevent and/or minimize the effects of jet lag (e.g. daytime fatigue, sleep disturbance) for people travelling easterly across two or more time zones. Helps to reset the body's sleep-wake cycle (aspect of the circadian rhythm). Helps to reduce the time it takes to fall asleep (sleep onset latency aspect of sleep quality) in people who fall asleep slowly/with delayed sleep phase disorder. A synergistic formula that reduces the risk of morning grogginess.

Each vegetable capsule contains

gamma-Aminobutyric acid (GABA).....	150 mg
L-Theanine	100 mg
Chamomile (<i>Matricaria recutita</i>) flower extract, 5% flavonoids.....	70 mg
Hops (<i>Humulus lupulus</i>) strobile extract, 3.5% flavonoids .	70 mg
Passionflower (<i>Passiflora incarnata</i>) flower extract, 4% flavonoids.....	70 mg
Whole skullcap (<i>Scutellaria lateriflora</i>) extract, 12.5% flavonoids	70 mg
Qiye Shen'an Pian (<i>Panax notoginseng</i>) leaf extract.....	50 mg
Lemon balm (<i>Melissa officinalis</i>) 10:1 extract.....	50 mg
Catnip (<i>Nepeta cataria</i>) herb top	15 mg
Melatonin.....	5 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule daily at or before bedtime or as directed by your health-care practitioner. For jet lag: Take once a day at bedtime, while travelling, or at destination until adapted to the new time zone or daily pattern (but do not exceed maximum daily dose of 1 capsule in total).

Duration of use

Consult a health-care practitioner for use beyond 4 weeks.

Sleep⁸ Ultra

With 10 mg Melatonin

capsules

Non-Habit-Forming
Sleeplessness, Jet Lag, Shift-work
Faster, Better, Longer Sleep

Helps increase total sleep time (aspect of sleep quality) in people suffering from sleep restriction or altered sleep schedule (e.g. shift-work / jet lag). Helps prevent and/or minimize the effects of jet lag (e.g. daytime fatigue, sleep disturbance) for people travelling easterly across two or more time zones. Helps to reset the body's sleep-wake cycle (aspect of the circadian rhythm). Helps to reduce the time it takes to fall asleep (sleep onset latency aspect of sleep quality) in people who fall asleep slowly/with delayed sleep phase disorder. A synergistic formula that reduces the risk of morning grogginess.

Each vegetable capsule contains

gamma-Aminobutyric acid (GABA).....	150 mg
L-Theanine	100 mg
Chamomile (<i>Matricaria recutita</i>) flower extract, 5% flavonoids.....	54 mg
Hops (<i>Humulus lupulus</i>) strobile extract, 3.5% flavonoids.	54 mg
Passionflower (<i>Passiflora incarnata</i>) flower extract, 4% flavonoids.....	54 mg
Whole skullcap (<i>Scutellaria lateriflora</i>) extract, 12.5% flavonoids	54 mg
Qiye Shen'an Pian (<i>Panax notoginseng</i>) leaf extract.....	50 mg
Lemon balm (<i>Melissa officinalis</i>) 10:1 extract.....	39 mg
Catnip (<i>Nepeta cataria</i>) herb top	15 mg
Melatonin.....	10 mg

Smooth Stevia

powder

Plant-Based Sweetener
Sugar Substitute · Nonbitter

Low glycemic index. Be mindful of the dosage, because 1/32 tsp. of Smooth Stevia = 1 teaspoon of sugar.

Ingredients

Isomaltulose (naturally occurring disaccharide from sugar beet) and stevia (*Stevia rebaudiana*) concentrate.

Directions of use

Add to taste to your favourite beverage and stir. Excellent sugar substitute for coffee, tea, and for baking!

Consumers rely on precise identification of botanical species and the quantity of marker compounds, especially when it relates to effectiveness on mood and stress. LC-MS/MS validates ingredients for identity and potency, ensuring consistent premium quality. It is able to detect compounds down to parts per trillion (10^{-12}) Consumers can trust in products that work for them.

New Product! Since March 2023

Sleep⁸ Plus

With 5 mg Melatonin

capsules

**Non-Habit-Forming
Sleeplessness, Jet Lag, Shift-work
Faster, Better, Longer Sleep**

Helps increase total sleep time (aspect of sleep quality) in people suffering from sleep restriction or altered sleep schedule (e.g. shift-work / jet lag). Helps prevent and/or minimize the effects of jet lag (e.g. daytime fatigue, sleep disturbance) for people travelling easterly across two or more time zones. Helps to reset the body's sleep-wake cycle (aspect of the circadian rhythm). Helps to reduce the time it takes to fall asleep (sleep onset latency aspect of sleep quality) in people who fall asleep slowly/with delayed sleep phase disorder. A synergistic formula that reduces the risk of morning grogginess.

Each vegetable capsule contains

gamma-Aminobutyric acid (GABA)	150 mg
L-Theanine	100 mg
Chamomile (<i>Matricaria recutita</i>) flower extract, 5% flavonoids	70 mg
Hops (<i>Humulus lupulus</i>) strobile extract, 3.5% flavonoids	70 mg
Passionflower (<i>Passiflora incarnata</i>) flower extract, 4% flavonoids	70 mg
Whole skullcap (<i>Scutellaria lateriflora</i>) extract, 12.5% flavonoids	70 mg
Qiye Shen'an Pian (<i>Panax notoginseng</i>) leaf extract	50 mg
Lemon balm (<i>Melissa officinalis</i>) 10:1 extract	50 mg
Catnip (<i>Nepeta cataria</i>) herb top	15 mg
Melatonin	5 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 1 capsule daily at or before bedtime or as directed by your health-care practitioner. *For jet lag:* Take once a day at bedtime, while travelling, or at destination until adapted to the new time zone or daily pattern (but do not exceed maximum daily dose of 1 capsule in total).

Duration of use

Consult a health-care practitioner for use beyond 4 weeks.

“Never bend your head. Always hold it high.
Look the world straight in the eye.”

Helen Keller

Sunflower Oil: Heart Smart Organic Sunflower Oil

First Cold-Pressed · Non-GMO

Plant sterol-fortified to promote healthy cholesterol levels. Helps lower total blood and LDL cholesterol. Helps maintain healthy cholesterol levels.

Each tablespoon contains

Plant sterols esters 375 mg
(combined beta-sitosterols, campesterols, and stigmasterols).

Other ingredients

Certified organic sunflower oil and natural vitamin E (mixed tocopherol concentrate, from non-GMO sunflower). Nitrogen-flushed to maintain optimum freshness, prevent oxidation, and ensure maximum nutritional value.

Fatty Acids

Linoleic 48–74%
Palmitic 4–9%
Oleic 14–40%
Stearic 1–7%

Directions of use

Adults: Take 3 tablespoons daily with food or as directed by your health-care practitioner.

Stir into soups, stews, and sauces; or use for light sautéing. Its subtle nutty flavour is also excellent for vinaigrettes, marinades, or as a replacement for butter or margarine on your toast. Enjoy a cholesterol-reduced breakfast, lunch, or dinner. Great-tasting and low in saturated fat; salt-, gluten-, cholesterol-, and trans fat-free.

Tea Tree Organic Essential Oil

Melaleuca alternifolia
100% Pure · Certified Organic

Used in aromatherapy to help relieve colds/cough. Helps to improve symptoms of fungal nail-bed infections. Helps treat acne pimples.

Each drop contains

Organic tea tree (*Melaleuca alternifolia*)
leaf or twig essential oil 100%

Active compounds

Terpinen-4-ol, alpha- and gamma-terpinene.

Directions of use

Adults: • For aromatherapy use: Mix 1 drop of essential oil in 1 tsp. (5 ml) of carrier (vegetable) oil (1% essential oil). Rub and/or massage into skin until solution vanishes. For local application (10% or less of body surface area): Apply to affected area up to three times per day. For acne use: Mix 5 drops of essential oil in 1 tsp. (5 ml) of carrier (vegetable) oil (5% essential oil). Cleanse skin thoroughly before applying the product. Apply product to affected areas one to three times daily. For nail fungus use: Do not dilute in carrier oil. Apply sparingly to affected nail(s) twice daily. Avoid contact with skin. For all uses: Do not apply undiluted essential oils to skin. Not for oral use. Avoid contact with eyes and mucous membranes; if this happens, rinse thoroughly with vegetable oil.

Duration of use

For occasional use only.

Ultra Max

powder

Daily Care Probiotic
36 Billion+ Live Active Probiotics
11 Strains plus Inulin
Helps Support Intestinal
and Gastrointestinal Health
DAIRY-FREE · SOY-FREE

Specific-use probiotic in case of difficulty swallowing a capsule, or with oral or gastric target. **Ultra Max** is a potent, complete formulation of 11 specific strains of beneficial bacteria cultures. Brownish colour is from the natural *Bifidobacteria* cultures. Provides live microorganisms that temporarily modify gut flora.

Each ¼ teaspoon contains

<i>Lactobacillus rhamnosus</i> R0011	14.4 billion CFU
<i>Lactobacillus rhamnosus</i> R1039	10.8 billion CFU
<i>Lactobacillus acidophilus</i> R0418	1.98 billion CFU
<i>Lactobacillus helveticus</i> R0052	1.8 billion CFU
<i>Lactobacillus casei</i> R0215	1.44 billion CFU
<i>Lactobacillus plantarum</i> R1012	1.44 billion CFU
<i>Bifidobacterium breve</i> R0070	1.08 billion CFU
<i>Bifidobacterium longum</i> ssp. <i>infantis</i> R0033	1.08 billion CFU
<i>Bifidobacterium longum</i> ssp. <i>longum</i> R0175	1.08 billion CFU
<i>Streptococcus salivarius</i> ssp. <i>thermophilus</i> R0083	720 million CFU
<i>Lactobacillus delbrueckii</i> ssp. <i>bulgaricus</i> R9001	180 million CFU

All stains are whole-cell.

Other ingredients

Arabinogalactan (33 mg), inulin (33 mg), non-GMO potato starch, vitamin C (ascorbic acid), and vegetable magnesium stearate.

Directions of use

Children 6–12 years, adolescents, and adults: Take ¼ teaspoon in cold food or water once daily or as directed by your health-care practitioner. If you are taking antibiotics, take this product at least 2–3 hours before or after them. Nonclumping. Does not alter the taste of food.

Ultra Purifiant Renew

500 mg

capsules

3-Week Plan · Gentle Action

Psyllium is used in herbal medicine as a bulk-forming laxative, to promote bowel movements by increasing bulk volume and water content, and to provide gentle relief of constipation and/or irregularity.

Each vegetable capsule contains

Psyllium	
(<i>Plantago ovata</i>) husk	304.507 mg
Butternut (<i>Juglans cinerea</i>) bark	32.887 mg
Corn (<i>Zea mays</i>) silk stigma and style 4:1 extract	29.233 mg
Plantain (<i>Plantago major</i>) leaf	23.143 mg
Red clover (<i>Trifolium pratense</i>) flower	23.143 mg
Blessed thistle (<i>Cnicus benedictus</i>) herb top	18.27 mg
Clove (<i>Syzygium aromaticum</i>) flower bud	18.27 mg
Yellow dock (<i>Rumex crispus</i>) root	18.27 mg

Black walnut (<i>Juglans nigra</i>) hull 4:1 extract	6.09 mg
Echinacea (<i>Echinacea angustifolia</i>) root	6.09 mg
Bentonite	5 mg
Odourless garlic (<i>Allium sativum</i>) bulb	3.045 mg

Other ingredients

Grapefruit seed extract* (28 mg), octanoic acid (calcium caprylate 3.045 mg and magnesium caprylate 3.045 mg), vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule made of vegetable carbohydrate gum and purified water.

*Combination of natural extracts of grapefruit, lemon, and tangerine seeds.

Directions of use

Adults: Take 5 capsules twice daily (morning and evening) with 8 oz. of water or juice before a meal or as directed by your health-care practitioner. If you are taking other medications, take this product at least 2 hours before or after them.

Maintain adequate fluid intake. Effects observed between 12–24 hours after first dose, and may take 2–3 days.

Duration of use

For occasional use only. Consult a health-care practitioner for use beyond 14 days.

Important

Take 1 capsule of **Acidophilus Ultra** per day, at noon, apart from the doses of **Ultra Purifiant Renew**. Beneficial microorganisms (probiotics) such as those in **Acidophilus Ultra**, replace the pathogens that have been eliminated to strengthen the intestinal flora and prevent the return of dysbiosis. The GPS™ enteric-coated capsules of **Acidophilus Ultra** guarantee that 100% of the promised probiotic cells survive destructive stomach conditions and arrive alive at the intestines to deliver their full benefits. Probiotic capsules without an enteric coating are destroyed in the stomach by gastric acid.

Vegetarian Strong Bones capsules

Builds Stronger Bones
Reduces Risk of Osteoporosis

Calcium, vitamin C, vitamin D, magnesium, manganese, and phosphorus help in the development and maintenance of bones. Calcium intake, when combined with sufficient vitamin D, a healthy diet, and regular exercise, may reduce the risk of developing osteoporosis. Vitamin D also helps in the absorption and use of calcium and phosphorus. Vitamin K2 also helps in the maintenance of bones. Copper helps to produce and repair connective tissue. Provides antioxidants for the maintenance of good health. This formula is suitable for vegetarian diets, as it contains no animal byproducts.

Ingredients (per 9 vegetable capsules)

Calcium (from calcium phosphate, tribasic)	1,000 mg
Phosphorus (from calcium phosphate, tribasic)	472.23 mg
L-Lysine	300 mg
L-Proline	300 mg
Magnesium (from fully reacted magnesium bisglycinate)	270 mg
Glucosamine hydrochloride (from <i>Aspergillus niger</i>)	252 mg
Vitamin C (ascorbic acid)	186 mg
Grape (<i>Vitis vinifera</i>) seed extract, 80% oligomeric proanthocyanidins	60 mg
Green tea (<i>Camellia sinensis</i>) leaf extract, 75% epigallocatechin-3-gallate (EGCG)	42 mg
Field horsetail (<i>Equisetum arvense</i>) aerial part extract, 7% silica	30 mg
Turmeric (<i>Curcuma longa</i>) root extract, 95% curcuminoids, providing curcumin I, demethoxycurcumin, and bisdemethoxycurcumin	22.5 mg
Zinc (from zinc monomethionine)	9.27 mg
Lycopene (from tomato [<i>Solanum lycopersicum</i>] flesh)	5 mg
Vitamin B1 (thiamine hydrochloride)	4.65 mg
Boron (from boron citrate)	3.36 mg
Manganese (from manganese citrate)	2.79 mg
Lutein (from marigold [<i>Tagetes erecta</i>] oleoresin)	2 mg
Copper (from copper citrate)	930 mcg
Folate (from calcium L-5-methyltetrahydrofolate)	500 mcg
Vitamin B12 (methylcobalamin)	150 mcg
Vitamin K2 (from menaquinone-4 [83 mcg] and menaquinone-7 [10 mcg])	93 mcg
Vitamin D3 (cholecalciferol)	25 mcg (1,000 IU)

Other ingredients

Natural peppermint flavour, microcrystalline cellulose, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take 3 capsules one to three times daily with food or as directed by your health-care practitioner. If you are taking other medications, take this product a few hours before or after them.

Duration of use

B-COMPLEX VITAMINS

Niacinamide

Vitamin B3 · 500 mg

capsules

Flush-Free · Energy Metabolism

Helps normal growth and development; in energy metabolism and tissue formation; to maintain the body's ability to metabolize nutrients; to reduce the risk of actinic keratosis, an early skin lesion that may precede nonmelanoma skin cancer; and to reduce skin immunosuppression caused by the sunlight. A factor in the maintenance of good health.

Each vegetable capsule contains

Vitamin B3 (niacinamide)..... 500 mg

Other ingredients

Vegetable magnesium stearate and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

Directions of use

Adults: Take one capsule 1–2 times per day with food or as directed by your health-care practitioner. For reducing the risk of actinic keratosis: Take 2 capsules per day with food. For all other uses: Take 1 capsule per day with food or as directed by a health-care practitioner.

Wintergreen Pure Essential Oil

Gaultheria procumbens

100% Pure · Clean · Unadulterated

Aroma: Sweet, fresh, minty, woody.

Attributes: Stimulating, refreshing, awakening.

Scent note: Top Note 

Each drop contains

Wintergreen (*Gaultheria procumbens*) leaf essential oil, steam-distilled 100%

Active compound

Methyl salicylate.

Directions of use

Add a few drops to your diffuser, favourite carrier oil, soap, lotion, or massage oil. Do not use essential oils undiluted. Avoid contact with eyes and mucous membranes; if this happens, rinse thoroughly with vegetable oil. Do not use if you are pregnant or breast-feeding; if you have epilepsy; or if you have broken, irritated, or sensitive skin. May cause allergic reaction; in which case, discontinue use and consult a health-care practitioner.

Duration of use

For external and occasional use only.

Terms and Sales Policy

1. Terms

Approved accounts: net 30 days. Accounts over 30 days will be charged 2% per month. Orders shipped C.O.D. are subject to a \$12.50 charge.

Note: You may pay with Visa or MasterCard without any additional fees.

2. Returned Cheques

Cheques returned due to insufficient funds will be subject to a \$15.00 fee. Accounts with more than one NSF cheque may be subject to C.O.D. terms.

3. New Accounts

All orders placed by new customers can be paid by certified cheque, money order, Visa, or MasterCard. If the customer would like to have terms, then a credit application form will need to be filled out. For chains of stores that have good standing credit history, credit privileges will be granted for new locations.

4. Shipping

Orders under \$375.00 before taxes are subject to a \$40.00 shipping fee. **Orders under \$275.00 before taxes will not be accepted.** "Add-ons" to previously placed orders will not be accepted. Shipping terms apply to all provinces and territories.

5. Damage Claims

Should you receive damaged goods in your shipment, they must be reported to us immediately.

6. Returns

Merchandise cannot be returned for credit without our prior written authorization. No returns will be accepted 120 days or more after the initial shipment date. A minimum 20% restocking charge (before taxes) will apply for all returns.

Note: Products opened or past due will not be credited (except as explained in point 7).

For any question or inquiry about returns, please contact our customer service department.

7. Credits

Any products returned to you by one of your customers for a valid reason may be credited in full and then reported to us in order to issue a credit on your account. For us to process your credit request, you are kindly required to provide us with the following information: Product code, description, lot number, reason of the return, as well as name and phone number of the customer who returned it. No credits will be processed if any of these details are missing.

8. Adjustments

In case of an error in invoicing, please notify us within 10 days of the receipt of the invoice. We will be willing to make the necessary adjustments.

9. Prices

Prices are subject to change without notice.

10. Other Information

When placing your order, please provide product codes and descriptions to facilitate processing orders quickly and accurately. Please make sure to use updated codes and descriptions from the most recent price list or catalogue. Orders can be placed through our online platform newrootsherbal.com/login, by e-mail at support@newrootsherbal.com, by fax at 1 800 676-8902, or by phone at 1 800 268-9486. Generally, if you place your order before noon (Eastern Time), it will be shipped the next business day.

New Roots Herbal—Making Life Better!

- **Scientifically Advanced Formulas**

4 Naturopathic physicians on staff formulating specialized therapeutic products.

- **Guaranteed Non-GMO Ingredients**

Genetically modified organisms are detected and quantified in our ISO 17025–accredited lab with state-of-the-art, real-time polymerase chain reaction (PCR) testing.

- **Surpassing All Quality Standards with Our ISO 17025–accredited Lab**

Our team of 22 scientists including 3 PhDs, 7 MScs, and 12 BScs has maintained our laboratory's ISO 17025 accreditation since 2014 with a wide scope of testing methods, including GMO analysis and detection of heavy metals.

- **Raising the Bar for Heavy-Metal Detection**

New Roots Herbal is the only branded Canadian supplement manufacturer with new technology able to detect and reject methylmercury poisons.

- **Providing Exclusivity to Health-Food Stores**

We do not sell our products in the 10,000+ pharmacy, grocery, and big-box stores around the corner from you.

MOST IMPORTANTLY

Strongly Support—Rather than Compete with—Health-Food Stores

We are not among the 15 suppliers competing with you by selling directly to consumers from their own websites, with discounts up to 30% off retail and free shipping.
